Introduction

This Introduction is not part of the Licence conditions.

Who we are

The Department of Environment Regulation (DER) is a Government Department for the State of Western Australia in the portfolio of the Minister for Environment. DER's purpose is to protect and conserve the State's environment on behalf of the people of Western Australia.

Our industry licensing role

DER has responsibilities under Part V of the *Environmental Protection Act 1986* (the Act) for the licensing of prescribed premises. Through this process DER works with the business owners, community, consultants, industry and other representatives to prevent, control and abate pollution and environmental harm to conserve and protect the environment. DER also monitor and audit compliance with works approvals and licence conditions, take enforcement action as appropriate and develop and implement licensing and industry regulation policy.

Licence requirements

This licence is issued under Part V of the Act. Conditions contained with the licence relate to the prevention, reduction or control of emissions and discharges to the environment and to the monitoring and reporting of them.

Where other statutory instruments impose obligations on the Premises/Licensee the intention is not to replicate them in the licence conditions. You should therefore ensure that you are aware of all your statutory obligations under the Act and any other statutory instrument. Legislation can be accessed through the State Law Publisher website using the following link:

<http://www.slp.wa.gov.au/legislation/statutes.nsf/default.html>

For your Premises relevant statutory instruments include but are not limited to obligations under the:

- Environmental Protection (Unauthorised Discharges) Regulations 2004 – these Regulations make it an offence to discharge certain materials such as contaminated stormwater into the environment other than in the circumstances set out in the Regulations.
- Environmental Protection (Controlled Waste) Regulations 2004 - these Regulations place obligations on you if you produce, accept, transport or dispose of controlled waste.

- Environmental Protection (Noise) Regulations 1997 – these Regulations require noise emissions from the Premises to comply with the assigned noise levels set out in the Regulations.

You must comply with your licence. Non-compliance with your licence is an offence and strict penalties exist for those who do not comply.

Licence holders are also reminded of the requirements of section 53 of the Act which places restrictions on making certain changes to prescribed premises unless the changes are in accordance with a works approval, licence, closure notice or environmental protection notice.

Licence Fees

If you have a licence that is issued for more than one year, you are required to pay an annual licence fee prior to the anniversary date of issue of your licence. Non payment of annual licence fees will result in your licence ceasing to have effect meaning that it will no longer be valid and you will need to apply for a new licence for your Premises.

Ministerial conditions

If your Premises has been assessed under Part IV of the Act you may have had conditions imposed by the Minister for the Environment. You are required to comply with any conditions imposed by the Minister.

Premises description and Licence summary

Boral Resources (WA) Ltd (Boral) operates numerous hard rock and sand extraction operations throughout WA. Boral maintains an Environmental Management System which is aligned with Australia/New Zealand, International Standards Organisation Environmental Management Systems - Requirements for Use (AS/NZS ISO 14001:2004).

The Seven Mile Hill Quarry was previously operated by RH Prime Pty Ltd who went into receivership on 24 February 2009 under licence L8165/2007/2.

Boral have been operating the hard rock quarry on the Mining Lease 15/444, located within the Coolgardie Mineral field at Seven Mile Hill, approximately 13km south west of Kalgoorlie. At the Boral's Seven Mile Hill site, hard rock is extracted, crushed, screened and stockpiled using the mobile crushing and screening plant.

The main concern at the site is the dust and noise emissions produced from the activities. The nearest residential area to the Seven Mile Hill Quarry is the Kurrawang townsite, which is 3.2 kilometres away.

This licence is the result of an amendment sought by DER to convert the existing licence to a new format REFIRE licence.

The licences issued for the Premises since 10/09/2009 are:

Instrument log		
Instrument	Issued	Description
L8165/2007/2	11/09/2009	Licence amendment and transfer of licence
L8571/2011/1	07/07/2011	New licence (old licence expired due to un-paid fees)
L8571/2011/1	04/04/2012	Licence amendment
L8571/2011/1	22/03/2013	Licence amendment
L8571/2011/1	15/08/2013	Licence amendment to REFIRE format

Severance

It is the intent of these Licence conditions that they shall operate so that, if a condition or a part of a condition is beyond the power of this Licence to impose, or is otherwise *ultra vires* or invalid, that condition or part of a condition shall be severed and the remainder of these conditions shall nevertheless be valid to the extent that they are within the power of this Licence to impose and are not otherwise *ultra vires* or invalid.

END OF INTRODUCTION

Licence conditions

1 General

1.1 Interpretation

1.1.1 In the Licence, definitions from the *Environmental Protection Act 1986* apply unless the contrary intention appears.

1.1.2 In the Licence, unless the contrary intention appears:

“the Act” means the *Environmental Protection Act 1986*;
