My comments regarding the Plastic bag ban discussion paper

I think this is an idea whose time has come. Plastic rubbish is monumental. The first step should be banning single use plastic bags. It is no hardship to carry a bag or use a box - people have just taken it for granted that the seller provides a bag.

More things need to be in paper when they must be contained - paper from plantation timber.

I fully support any move which reduces plastic containers and bags. So start with a complete ban on single use plastic bags

Thank you for the opportunity to comment.

Sally
