

Hi Irene,

As discussed on the phone, I am experiencing a few issues with the Works Approval / Licence Application Form (September 2015 V2).

- the document would not allow me to save the work I had done, our IT department assessed the error and could not determine the reason. They suspect it is an issue with the form itself. I commenced a new application and it is saving fine now (although I am concerned it is going to occur again).
- Attachment 6 will not allow the user to insert any rows.
- It will not allow you to tick the check boxes. However we have overcome this by copying and pasting ticked boxes from other documents.

As this form is new and out for comment, I thought it is worth providing some feedback.

Kind regards,
