

Application form: Works Approval / Licence / Renewal / Amendment / Registration

Part V Division 3, *Environmental Protection Act 1986* Environmental Protection Regulations 1987

Part 1: Application type

INSTRUCTIONS:

- Completion of this form is a statutory requirement under s.54(1)(a) of the *Environmental Protection Act* 1986 (WA) (EP Act) for works approval applications; s.57(1)(a) for licence and licence renewal applications; s.59B(1)(a) for applications for an amendment; and under r.5B(2)(a) of the Environmental Protection Regulations 1987 (WA) (EP Regulations) for applications for registration of premises.
- The instructions set out in this application form are general in nature.
- A reference to 'you' in these instructions is a reference to the applicant.
- The information provided to you by the Department of Water and Environmental Regulation (DWER) in relation to making applications does not constitute legal advice. DWER recommends that you obtain independent legal advice.
- Applicants seeking further information relating to requirements under the EP Act and/or EP Regulations
 are directed to the Parliamentary Counsel's Office website (<u>www.legislation.wa.gov.au</u>). Schedule 1 of the
 EP Regulations contains the categories of prescribed premises.
- For prescribed premises where activities fall within more than one category, ALL applicable categories
 must be identified. This applies for existing prescribed premises seeking renewal or amendment, as well
 as new prescribed premises.
- The application form must be completed with all relevant information attached. Attachments can be combined and submitted as one or more consolidated documents if desired, provided it is clear which section of the application form the information / attachments relate to. Where attachments are submitted separately, avoid duplicating information. Ensure that any cross-references between the application form and the supporting document(s) are accurate.
- If an application form has been submitted which is incomplete or materially incorrect, the Chief Executive Officer of DWER (CEO) will decline to deal with the application and advise the applicant accordingly.
- On completing this application form, please submit it to DWER in line with the instructions in Part 15 of the form.

1.1	This is an application for: [Select one option only. Your application may be returned if multiple options are selected.] under Part V, Division 3 of the EP Act.	 ☑ Works approval □ Licence Existing registration number(s): [] Existing works approval number(s): [] 		
 Please see the: <u>Guideline: Industry Regulation Guide</u> to Licensing <u>Procedure: Prescribed premises</u> works approvals and licences for more information to assist in understanding DWER's regulatory regime for prescribed premises. 		 Renewal Existing licence number: [] Amendment Number of the existing licence or works approval to be amended: [] Registration (works approval already obtained) Existing works approval number(s): [] 		
1.2	days until the expiry of the existing works Only active instruments can be amended. Ap	plications to amend a works approval or licence or to the existing works approval or licence expiring		
1.3	This application is for the following categories of prescribed premises: (specify all prescribed premises category numbers)	Category 87 Fuel burning: premises on which gaseous, liquid or solid fuel with a sulphur content of less than 0.25% is burnt in a boiler for the supply of steam or in power generation equipment. Production or design capacity: More than 500 but less than 2000 kg per hour in aggregate.		
		All activities that meet the definition of a prescribed premises as set out in Schedule 1 of the EP Regulations have been specified above (tick, if yes).		

Completion Matrix					
The matrix below explains what sections are require	d to be completed for o	different types of application	ons.

Attachment 10: Proposed fee calculation • • •					
Attachment 11: Request for exemption from publication If required. If required. If required.					
Key: • Must be completed / submitted. △ To the extent changed / required in relation to the amendment. N/A Not required with application, but may be requested subsequently depending on DWER records. "If required" Sections for applicants to determine.					

Part 2: Applicant details

INSTRUCTIONS:

- The applicant (the occupier of the premises) must be an individual(s), a company, body corporate, or public authority, but not a partnership, trust, or joint-venture name. Applications made by or on behalf of business names or unincorporated associations will not be accepted.
- If applying as an individual, your full legal name must be provided.
- If applying as a company, body corporate, or public authority, the full legal entity name must be inserted.
- Australian Company Number's (ACN) must be provided for all companies or body corporates.
- DWER prefers to send all correspondence electronically via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act (Part V documents) electronically via email, by indicating your consent in Section 2.3.
- Companies or body corporates making an application must nominate an authorised representative from within their organisation. Proof of authorisation must be submitted with the application (see Section 2.10). If you are applying as an individual, you are the representative.
- Details of a contact person must be provided for DWER enquiries in relation to your application. This
 contact person can be a consultant if authorised to represent the applicant. Written evidence of this
 authorisation must be provided.
- Details of the occupier of the premises must be provided. One of the options must be selected and if you
 have been asked to specify, please provide details. For example, if 'lease holder' has been selected,
 please specify the type of lease (for example, pastoral lease, mining lease, or general lease) and provide a
 copy of the lease document(s). Note that contracts for sale of land will not be sufficient evidence of
 occupancy status.

2.1	Applicant name/s (full legal name/s):	Square Kilometre Array SKAO.			
	The proposed holder of the works approval, licence or registration.				
	ACN (if applicable):	N/A			
2.2	Trading as (if applicable):	N/A			
2.3 Authorised representative details:		Name			
	The person authorised to receive correspondence and Part ∨ documents on behalf of the applicant under the EP Act.	Position			
	Where 'yes' is selected, all correspondence will be sent to you via email, to the	Telephone			
	email address provided in this section.	Email			
	Where 'no' has been selected, Part V documents				
	will be posted to you in hard			Yes	No
copy to the postal / business address specified in Section 2.4, below. Other general correspondence may still be sent to you via email.		applicant) and DW	itten correspondence between myself (the /ER, regarding the subject of this exclusively via email, using the email ovided above.		
2.4	Registered office address, as registered with the Australian Securities and Investments Commission (ASIC): This must be a physical address to which a Part V				
	document may be delivered.				

Part 2:	Applicant details					
2.5	Postal address for all other correspondence: If different from Section 2.4.					
2.6	Contact person details for DWER enquiries relating	Name				
	to the application (if different from the authorised	Position				
	representative): For example, could be a	Organisation	Ventia Pty Limited			
	consultant or a site-based employee.	Address				
		Telephone				
		Email				
2.7	Occupier status:	Registered proprietor on certificate of title.				
	Occupier is defined in s.3 of the EP Act and includes a person in occupation or	Lease holder (please specify, including date of expiry of lease).				
	control of the premises, or occupying a different part of the premises whether or not	Pastoral Lease No. 3114/406 held by CSIRO. The lease expiry date is sixty (60) years, commencing 5 November 2022.				
	that person is the owner.	Public authority that has care, control, or management of the land.				
	Note: if a lease holder, the applicant must be the holder of an executed lease, not just an	example, joint ven	legal occupation or control (please specify ture operating entity, contract, letter of ope gal document or evidence of legal occupati	rational		
	agreement to lease.					
Attach	ments			N/A	Yes	
2.8	Attachment 1A: Proof of occupier status	Copies of certificate of title, lease, or other instruments evidencing proof of occupier status, including the expiry date or confirmation that there is no expiry date, have been provided and labelled as Attachment 1A.		\boxtimes		
2.9	Attachment 1B: ASIC company extract	A current company information extract (not the company information summary) purchased from the ASIC website(s) for all new applications / registrations has been provided and labelled as Attachment 1B.				
2.10	Attachment 1C: Authorisation to act as representative of the occupier	act on the occupie	umentation authorising the applicant to r's behalf as their authorised ive has been provided and labelled as		\boxtimes

•	emission and discharge points (with precise GPS coordinates where available);		
•	monitoring points (with precise GPS coordinates where available);		
•	sensitive receptors and land uses		
 all areas proposed to be cleared (if applicable). 			
Maps must contain a north arrow, clearly marking the area in which the activities are carried out. The map or maps must be of reasonable clarity and have a visible scale.			

Part 4: Proposed activities

INSTRUCTIONS:

- You must provide a description and the scope, size and scale of all prescribed activities of Schedule 1 to the EP Regulations including the maximum production or design capacity of each prescribed activity.
- If applying for a works approval or licence amendment involving the construction of new infrastructure, you must provide information on infrastructure to be constructed and how long construction is expected to take. You must confirm if commissioning is to occur and how long it will take.
- If applying for a works approval or licence amendment *not* involving the construction of new infrastructure, provide details of the proposed amendment.
- You must identify all emission sources on the premises map/s.
- You must also provide information on activities which directly relate to the prescribed premises category which have, or are likely to result in, an emission or discharge.
- If clearing activities are proposed provide a description and details. If a relevant exemption under Schedule 6 of the EP Act or r.5 of the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (Clearing Regulations) may apply, provide details.
- Note that in some cases, DWER may require that the clearing components of a works approval or licence (or amendment) application be submitted separately through the clearing permit application process. Refer to the <u>Procedure: Prescribed premises works approvals and licences</u> for further guidance.
- Please note that the requested information is critical to DWER's understanding of the proposed activities. The more accurate, specific, and complete the information provided in the application, the less uncertainty that DWER may identify in the application, therefore facilitating completion of the assessment in a more efficient and timely manner.
- 4.1 Prescribed premises infrastructure and equipment
 In Table 4.1 (below), provide a list of all items of infrastructure and equipment within the boundary of the
 prescribed premises relevant to this application, and include the following details for each:

 relevant categories (if known) the categories of prescribed premises (as listed under Schedule 1
 of the EP Regulations) that relate to that infrastructure or equipment;
 site plan reference the location of that infrastructure or equipment (with reference to the site plan
 map or maps provided above in Section 3.4 and labelled as Attachment 2 e.g. use GPS
 coordinates or a clear description such as *"labelled as [label on premises map] on Map A"*);
 is it critical containment infrastructure (CCI)? indicate if the identified infrastructure or
 equipment would be categorised as CCI. Refer to the <u>Guideline: Industry Regulation Guide to
 Licensing</u> for further information on CCI; and
 is environmental commissioning required? indicate if environmental commissioning is intended
 to be undertaken for that item of infrastructure or equipment. Refer to the <u>Guideline: Industry
 Regulation Guide to Licensing</u> for further information on environmental commissioning.

Add additional rows to Table 4.1 (below) as required.

Part 6: Other DWER approvals					
 INSTRUCTIONS: If you have applied, or intend to apply, for other approvals within DWER that may be relevant to this application, you must provide relevant details. If you have referred, or intend to refer, your proposal to the Environmental Protection Authority (EPA), you must provide the requested details. 					
Pre-application scoping	Pre-application scoping				
6.1 Have you had any pre-application / pre- referral / scoping meetings with DWER regarding any planned applications?	 No Yes – provide details: A pre-application scoping meeting with DWER for this application took place on August 30, 2024, at 2:00 PM. The environmental officers from DWER are Denise Franz-Muir and Amine Fisher. 				
Environmental impact assessment (Part IV of the EP	Act)				
 6.2 Have you referred or do you intend to refer the proposal to the EPA? Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If DWER considers that the proposal in this application is likely to constitute a 'significant proposal', DWER is required under s.38(5) of the EP Act to refer the proposal to the EPA for assessment under Part IV, if such a referral has not already been made. If a relevant Ministerial Statement already exists, please provide the MS number in the space provided. 	 Yes (referred) – reference (if known): Yes – intend to refer (proposal is a 'significant proposal') Yes – intend to refer (proposal will require a s.45C amendment to the current Ministerial Statement): MS [] No – a valid Ministerial Statement applies: MS [] No – not a 'significant proposal' 				
Clearing of native vegetation (Part V Division 2 of the	EP Act and Country Area Water Supply Act 1947)				
 6.3 Have you applied or do you intend to apply for a native vegetation clearing permit? In accordance with the <u>Guideline: Industry</u> <u>Regulation Guide to Licensing</u> and <u>Procedure: Native</u> <u>vegetation clearing permits</u>, where clearing of native vegetation: is exempt under Schedule 6 of the EP Act or the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (refer to <u>A</u> <u>guide to the exemptions and regulations for</u> <u>clearing native vegetation</u>) is being assessed by a relevant authority which would lead to an exemption under Schedule 6 of the EP Act, or has been referred under s.51DA of the EP Act and a determination made that a clearing permit is not required (refer to the <u>Guideline: Native</u> <u>vegetation clearing referrals</u>), the clearing will not be reassessed by DWER or be subject to any additional controls by DWER. If the proposed clearing action is to be assessed in accordance with, or under, an <u>Environment</u> <u>Protection and Biodiversity Conservation Act</u> (Cth) (EPBC Act) accredited process, such as the assessment bilateral agreement, the clearing permit application <u>Form Annex C7 – Assessment bilateral</u> <u>agreement</u> must be completed and attached to your clearing permit application. 	 Yes – clearing application reference (if known): CPS 9547-1, CPS 10114-1 Yes – a valid EP Act clearing permit already applies: CPS [] No – this application includes clearing (please complete Sections 4.13 to 4.19 above) No – permit not required (no clearing of native vegetation) No – permit not required (clearing referral decision): CPS [] No – an exemption applies (explain why): 				

Part 6	: Other DWER approvals				
6.4	 Have you applied or do you intend to apply for a <i>Country Area Water Supply Act</i> 1947 licence? If a clearing exemption applies in a <i>Country Area Water Supply Act</i> 1947 (CAWS Act) controlled catchment, or if compensation has previously been paid to retain the subject vegetation, a CAWS Act clearing licence is required. If yes, contact the relevant DWER regional office for a Form 1 <i>Application for licence</i>. Map of CAWS Act controlled catchments 	 Yes – application reference No – a valid licence applies No – licence not required)): []]
Water	licences and permits (Rights in Water and Irrig	ation Act 1914)

Part 9: Emissions, discharges, and waste

INSTRUCTIONS:

- Please see <u>Guideline: Risk Assessments</u> and provide all information relating to emission sources, pathways and receptors relevant to the application.
- You must provide details on sources of emissions (for example, kiln stack, baghouses or discharge pipelines) including fugitive emissions (for example, noise, dust or odour), types of emissions (physical, chemical, or biological), and volumes, concentrations and durations of emissions.
- The potential for emissions should be considered for all stages of the proposal (where relevant), including during construction, commissioning and operation of the premises.

				Yes			
9.1	Are there potential emissions or discharges arising	g from the proposed activities?		X			
	If yes, identify all potential emissions and discharges arising from the proposed activities and complete Table 9.1: Emissions and discharges (below).						
	Gaseous and particulate emissions (e.g. emissions from stacks, chimneys or baghouses)	Dust (e.g. from equipment, unsealed roads and/or stockpiles, etc.)					
	□ Wastewater discharges (e.g. treated sewage, wash water, or process water discharged to lands or waters) □ Waste and leachate (e.g. emission seepage, leaks and spills of waste from process and handling areas, etc.)						
	Noise (e.g. from machinery operations and/or vehicle operations)	Odour (e.g. from wastes accepted at putrescible landfills, storage or processing of waste or other odorous materials, etc.)					
	Contaminated or potentially contaminated Electromagnetic radiation ¹ stormwater (e.g. stormwater with the potential to come into contact with chemicals or waste materials, etc.)						
	Other (please specify): [Light, vibrations] ¹ Note that for electromagnetic radiation, copies/details of other relevant approvals (such as from the Department Mines, Industry Regulation and Safety or the Radiological Council) must be provided where applicable.						

Part 9: Emissions, discharges, and waste

Details of any pollution control equipment or waste treatment system, including any control mechanisms used to ensure proper operation of this equipment, must be included in the proposed controls column of the 'Emissions and discharges table' below. Details of management measures employed to control emissions should also be included. Please provide / attach any relevant documents (e.g. management plans, etc.). Additional rows may be added as required and/or further information may be included as an attachment (see Section 9.3).

Please refer to section 5.1.2, Table 5 of the Supporting Document.

9.2		e-related activities at the er "yes" or "no" for the foll	e premises ² owing questions and complete Table 9.2 (below).	No	Yes		
	(a)	Is waste accepted at the	e premises?	\boxtimes			
	(b)	Is waste produced on th	ne premises?		\boxtimes		
	(c)	Is waste processed on t	the premises?	\boxtimes			
	(d)	Is waste stored on the p	premises?		\boxtimes		
	(e)	Is waste buried on the p	premises?	\boxtimes			
	(f)	Is waste recycled on the	e premises?	\boxtimes			
	(g)	(g) Is any of the waste listed in Table 9.2 (below) also considered a 'dangerous good' for the purposes of the Dangerous Goods Safety (Storage and Handling of Non-Explosives) Regulations 2007? ³					
		Specify, if yes:					
	 ² Copies / details of any other relevant approvals (e.g. from the Department of Health) must be provided where applicable. ³ Wastes derived from the storage, handling, and use of dangerous goods may be considered hazardous and may need to be handled with the same precautions. Please refer to the Department of Mines, Industry Regulation and Safety's <i>Dangerous Goods Safety information sheet</i> for more information. Solid waste types must be described with reference to <i>Landfill Waste Classification and Waste Definitions</i> 1996 (as amended from time to time) and the Environmental Protection (Controlled Waste) Regulations 2004 (Controlled Waste Regulations). Liquid waste types must be described with reference to the Controlled Waste Regulations. For further guidance on the definition of waste, refer to <i>Fact Sheet: Assessing whether material is waste</i>. 						
	Detail must be provided on storage type (for example, hardstand and containment infrastructure), capacity, likely storage volumes, and containment features (for example, lining and bunding). Additional rows may be added as required and/or further information may be included as an attachment (see Section 9.4). Please refer to section 5.2, Table 6 in the Supporting Document.						
Attach	ments			N/A	Yes		
9.3		nment 6A: Emissions ischarges (if required)	If required, further information for Section 9.1 has been included as an attachment labelled Attachment 6A.		\boxtimes		
9.4		nment 6B: Waste tance (if required)	If required, further information for Section 9.2 has been included as an attachment labelled Attachment 6B.	\boxtimes			
					-		

Part 10: Siting and location						
10.1	What is/are the distance(s) to the nearest sensitive land use(s)? A sensitive land use is a residence or other land use which may be affected by an emission or discharge associated with the proposed activities.			There are no waterways on the proposed site. The nearest waterway is Wooleen Lake, about 50 km southwest of the power plant, and Breberle Lake, 92 km northwest of the power plant. Both lakes are designated Wetlands of National Significance and are crucial breeding habitats for the gull-billed tern (<i>Gelochelidon nilotica</i>) (Desmond et al., 2001). Refer to section 6.0 in the Supporting Document for further information.		
10.2	Nearby environmental Identify in Table 10.2 (b	ly sensitive receptors and as elow):	spects			
		of environmentally sensitive rec in close proximity to, the propo		wn or suspected to be present nises boundary;		
		he sensitive receptors (e.g. typ ra or fauna, etc.);	e of Threatened Ec	ological Community, species or		
	 their actual or closest point/s 	approximate known distance a ;); and	and direction from th	ne premises boundary (at the		
		vhat measures have been or w acted by any emissions or disc		re that sensitive receptors are not emises.

	Please refer section 6.0	of the Supporting Document.				
ttach	iments				N/A	Ye
0.4	Attachment 7: Siting and location	You must provide details and location of the premises, inclu				X

Part 11: Submission of any other relevant information					
Attach	ments		No	Yes	
11.1 Attachment 8: Additional information submitted	Applicants seeking to submit further information may include information labelled Attachment 8. If submitting multiple additional attachments, label them 8A, 8B, etc.		X		
	List title of additional document(s) attached:	Attachment 8A – Supporting Document Attachment 8B – Emissions Calculations			

Part 12: Category checklist(s)					
Attach	ments		N/A	Yes	
12.1	Attachment 9: Category	DWER has developed category checklists to assist applicants with preparing their application.			
	checklist(s)	These checklists are available on <u>DWER's website</u> .			
		The relevant category-specific checklist(s) must be completed and included with the application, labelled as Attachment 9. If attaching multiple category checklists, label them 9A, 9B, etc.			
		Do not select "N/A" unless:			
		 a relevant category checklist is not yet published on DWER's website, or 			
		 the application is for an amendment that does not propose changes to the method of operation, or change the inputs, outputs, infrastructure, equipment, emissions, or discharges of / from the premises. 			
		Note that that a category checklist(s) may still be required for renewal applications. You will be advised in your renewal notification letter (sent approximately twelve months before the licence expiry date) if you are required to provide the information identified in a category checklist.			
		Where a category checklist is submitted, please specify which checklist(s) in the space below.			
	List title(s) of category checklists attached:				

Part 13:	Proposed fee calculation				
INSTRU	CTIONS:				
Please c	alculate the prescribed fee using the relevant online f	ee calculator link	ked below.		
•	Licence: www.der.wa.gov.au/LicenceFeeCalculator				
•	Works approval: www.der.wa.qov.au/WorksApprova	IFeeCalculator			
•	Amendment: https://www.wa.gov.au/government/pu	blications/works	-approval-and-licence-		
Difforont	<u>amendment-fee-calculator</u> t fee units apply for different fee components. Fee uni	to may also have	different emounts denou	adina	
	eriod in which the calculation is made.	is may also have	amerent amounts deper	lang	
Once DV	VER has confirmed that the application submitted me	ets the relevant r	equirements of the EP A	ct, you	
	ssued an invoice with instructions for paying your app				
Further i	information on fees can be found in the <u>Fact Sheet: In</u>	dustry Regulatio	o <u>n fees</u> , and on <u>DWER's v</u>	<u>vebsite</u> .	
13.1	Only the relevant fee calculations are to be completed as follows:	Section 13.3	for works approval applica	tions	
	[mark the box to indicate sections completed]	Section 13.4	for licence / renewal applie	cations	
	□ Section 13.5 for registration applications				
		Section 13.6	for amendment application	าร	
		Section 13.7	for applications requiring of	learing	
		of native vegetat	tion		
13.2	All information and data used for the calculation of proper accordance with Section 13.8.	osed fees has bee	n provided in	\boxtimes	
13.3	Proposed works approval fee				
Proposed	d works approval fee (see Schedule 3 of the EP Regulatio	ns)			
and cos	Fees relate to the cost of the works, including all capital costs (inclusive of GST) associated with the construction and establishment of the works proposed under the works approval application. This includes, for example, costs associated with earth works, hard stands, drainage, plant hire, equipment, processing plant, relocation of equipment and labour hire.				
Costs ex	clude:				
-the	cost of land				
	cost of buildings to be used for purposes unrelated to the become, prescribed premises	purposes in resp	ect of which the premises a	are, or	
- cos	ts for buildings unrelated to the prescribed premises activ	ity or activities			
- con	sultancy fees relating to the works.				
Fee com	ponent		Proposed fee		

13.4 Proposed licence fee (new licences and licence renewals)

Detailed licence fee calculations

Part 1 Premises component (see r.5D and Part 1 of Schedule 4 of the EP Regulations)

The production or design capacity should be the maximum capacity of the premises. For most categories, the production or design capacity refers to an annual rate. The figure should be based on 24 hour operation for 365 days, unless there is another regulatory approval or technical reason that restricts operation.

The premises component fee applies to the category in Part 1, Schedule 4 incurring the higher or highest amount of fee units in accordance with r.5D(2) of the EP Regulations.

List all categories (insert additional rows as required). Use only the higher or highest amount of fee units to determine the Part 1 fee component.

Category	Production or design capacity	Fee units
Using the higher or highest amount of fee units. Part 1 component subtotal		\$

Using the higher or highest amount of fee units, Part 1 component subtotal

Part 2 Waste (see r.5D(1a)(b) and Part 2 of Schedule 4 of the EP Regulations)

If your premises includes one or more of the following categories specify any applicable Part 2 waste amounts. Do not include Part 3 waste components of these discharges in the below calculations.

Categories: 5, 6, 7, 8, 9, 12, 14, 44, 46, 53, 54A, 70, 80, or 85B

Part 2 waste means waste consisting of -

- (a) tailings; or
- (b) bitterns; or
- (c) water to allow mining of ore; or
- (d) flyash; or
- (e) waste water from a desalination plant.

If the premises does not fall into one of the categories listed above, or there are no applicable Part 2 waste amounts, the sub total for this section will be \$0.

Insert additional rows as required. Sum all Part 2 waste fees to determine the sub total.

Discharge quantity (tonnes/year)	Fee units
Part 2 component subtotal	\$

Part 3 Waste – Discharges to air, onto land, into waters (see Part 3 of Schedule 4 of the EP Regulations)

Choose the appropriate location of the discharge and enter the discharge amount(s) in the units specified in the EP Regulations. This should be the amount of waste expected to be discharged over the next 12 months, expressed in the units and averaging period applicable for that waste kind (for example, g/minute or kg/day). Amounts can be measured, calculated, or estimated and can be based on data acquired over the previous 12 months, but should be based on the maximum premises capacity and not the forecast operating hours.

Where there are discharges, all prescribed waste types must be considered in the fee calculation. If a specified waste type is not present in the discharge, this must be justified using an appropriate emission estimation technique (for example, sampling data, industry sector guidance notes, National Pollution Inventory guides and emission factors).

Discharges to air				
Discharges to air	Discharge rate (g/min)		Discharges to air	Discharge rate (g/min)
Carbon monoxide			Nickel	
Oxides of nitrogen			Vanadium	
Sulphur oxides			Zinc	
Particulates (Total PM)			Vinyl chloride	
Volatile organic compounds			Hydrogen sulphide	
Inorganic fluoride			Benzene	
Pesticides			Carbon oxysulphide	
Aluminium			Carbon disulphide	
Arsenic			Acrylates	
Chromium			Beryllium	
Cobalt			Cadmium	
Copper			Mercury	
Lead			TDI (toluene-2, 4-di-iso-cyanate)	
Manganese			MDI (diphenyl-methane di-iso-cyanate)	
Molybdenum			Other waste	
Part 3 component subtotal			\$	
Discharges onto land or into wa	ters			Discharge rate
 Liquid waste that can potentially deprive receiving waters of oxygen (for each kilogram discharged per day) — 		(a)) biochemical oxygen demand (in the absence of chemical oxygen demand limit)	
		(b)	chemical oxygen demand (in the absence of total organic carbon limit)	
	ľ	(C)	total organic carbon	
2. Bio-stimulants (for each kilogra	am discharged	(a)) phosphorus	
per day) —	ŀ	(b)	total nitrogen	
 Liquid waste that physically alters the characteristics of naturally occurring waters —) total suspended solids (for each kilogram discharged per day)	
		(b)) surfactants (for each kilogram discharged per day)	
		(c)	colour alteration (for each platinum cobalt unit of colour above the ambient colour of the waters in each megalitre discharged per day)	
		(d)) temperature alteration (for each 1°C above the ambient temperature of the waters in each megalitre discharged per day) —	
			(i) in the sea south of the Tropic of Capricorn	
			(ii) in other waters	

 Waste that can potentially accumulate in the environment or living tissue (for 	(a) aluminium		
each kilogram discharged per day) —	(b) arsenic		
	(c) cadmium		
	(d) chromium		
	(e) cobalt		
	(f) copper		
	(g) lead		
	(h) mercury		
	(i) molybdenum		
	(j) nickel		
	(k) vanadium		
	(I) zinc		
	(m)pesticides		
	(n) fish tainting wastes		
	(o) manganese		
5. E. coli bacteria as indicator species (in	(a) 1,000 to 5,000 organisms per 100 ml		
each megalitre discharged per day) —	(b) 5,000 to 20,000 organisms per 100 ml		
	(c) more than 20,000 organisms per 100 ml		
6. Other waste (per kilogram discharged	(a) oil and grease		
per day) —	(b) total dissolved solids		
	(c) fluoride		
	(d) iron		
	(e) total residual chlorine		
	(f) other		
Part 3 component subtotal \$			\$
Summary – Proposed licence fee			
Part 1 Component			
Part 2 Component			
Part 3 Component			
Total proposed licence fees: \$			\$
13.5 Prescribed fee for registration			
A fee of 24 units applies for an application for registration of premises, unless the occupier of the premises holds a licence in respect of the premises, in accordance with r.5B(2)(c) of the EP Regulations.			to acknowledge)

13.6 Amendment fee (works approval or licence) The fee prescribed for an application for an amendment to a works approval or licence is calculated in accordance with r.5BB(1)(a) of the EP Regulations: for a single category of prescribed premises to which the works approval or licence relates, by using the fee unit number corresponding to the prescribed premises category and relevant design capacity threshold in Schedule 4 Part 1 of the EP Regulations. for multiple categories of prescribed premises to which the works approval or licence relates, by using the highest fee unit number corresponding to the prescribed premises categories and design capacity threshold in Schedule 4 Part 1 of the EP Regulations. Fee Units Proposed fee \$ 13.7 Prescribed fee for clearing permit In accordance with the Guideline: Industry Regulation Guide to Licensing and Procedure: Native vegetation clearing permits, where approval to clear native vegetation is sought as part of an application for a works approval or licence, DWER may elect to either jointly or separately determine the clearing component of the application. Where DWER separately determines the clearing component of an application, the application will be deemed to be an application for a clearing \square (Tick to acknowledge) permit under s.51E of the EP Act and processed accordingly. Note: If a clearing permit application has been separately submitted and accepted by DWER, a refund for the clearing permit application will not be provided where DWER determines to address clearing requirements as part of a related works approval application. 13.8 Information and data used to calculate proposed fees The detailed calculations of fee components, including all information and data used for the calculations are to be provided as attachments to this application, labelled as Attachment 10, with an appropriate suffix (for example 10A, 10B etc.). Please specify the relevant attachment number in the space/s provided below. Proposed fee for works approval Attachment No. Details for cost of works Attachment 10A Attachment No. Proposed fee for licence Part 1: Premises Part 2: Waste types

Part 3: Discharges to air, onto land, into waters

Part 14: Commercially sensitive or confidential information

NOTE:

Information submitted as part of this application will be made publicly available. If you wish to submit commercially sensitive or confidential information, please identify the information in Attachment 11, and include a written statement of reasons why you request each item of information be kept confidential.

Information submitted later in the application process may also be made publicly available at DWER's discretion. For any commercially sensitive or confidential information, please follow the same process as described above.

DWER will take reasonable steps to protect genuinely confidential or commercially sensitive information. However, please note that DWER cannot commit to redacting all personal information from all supporting documents. You are advised to ensure that all personal information, including signatures, are removed from supporting documents prior to submitting them to the department. Please note that all submitted information may be the subject of an application for release under the *Freedom of Information Act 1992*.

All information which you would propose to be exempt from public disclosure has been		N/A
separately placed in a redacted version of the application form and its supporting documentation. Note that this is in addition to the unredacted version(s) provided to DWER for its assessment. Grounds for claiming exemption in accordance with Schedule 1 to the <i>Freedom of Information Act 1992</i> must be specified in Attachment 11 (located at the end of this form).		

Part 15: Submission of application

INSTRUCTIONS:

Check one of the boxes below to nominate how you will submit your application.

Files larger than 50MB cannot be received via email by DWER. Files larger than 50MB can be sent via File Transfer. Alternatively, email DWER to make other arrangements.

A full, signed, electronic copy of the application form including all attachments has been submitted via email to <u>info@dwer.wa.gov.au</u> ; OR	
A signed, electronic copy of the application form has been submitted via email to <u>info@dwer.wa.qov.au</u> and attachments have been submitted via File Transfer, or electronically by other means as arranged with DWER; OR	\boxtimes
A full, signed hard copy has been sent to: APPLICATION SUBMISSIONS Department of Water and Environmental Regulation Locked Bag 10 Joondalup DC WA 6919	

Part 16: Declaration and signature

General

I / We confirm and acknowledge that:

- the information contained in this application is true and correct;
- I / we have legal authority to sign on behalf of the applicant (where authorisation provided);
- I / we have not altered the requirements and instructions set out in this application form;
- I / we have provided a valid email address in Section 2.3 for receipt of correspondence electronically via email from DWER in relation to this application;
- that successful delivery to my / our server constitutes receipt of correspondence sent electronically via email from DWER in relation to this application; and
- I / we have provided a valid postal and/or business address in Section 2.4 for the service of all Part V documents.
- giving or causing to be given information that to my knowledge is false or misleading is an offence under s.112 of the EP Act and may incur a penalty of up to \$100,000.

Publication

I / We confirm and acknowledge:

- this application (including all attachments apart from the sections identified in Attachment 11) is a public document and may be published;
- marine surveys provided in accordance with Part 5 will be published and used, for the purposes of the IMSA
 project, in accordance with your declaration made in the Metadata and Licensing Statement;
- all necessary consents for the publication of information have been obtained from third parties;
- information considered exempt from public disclosure has been noted by redaction of a separately provided copy of the completed application form and its supporting documentation (in accordance with Part 14), with reasons as to why the information should be exempt in accordance with the grounds specified in Schedule 1 to the *Freedom of Information Act 1992* (WA) being provided in Attachment 11;
- subsequent information provided in relation to this application will be a public document and may be published unless written notice has been given to DWER by the applicant, at the time the information is provided, claiming that the information is considered exempt from public disclosure; and
- the decision to not publish information will be at the discretion of the CEO of DWER and will be made consistently with the provisions of the *Freedom of Information Act 1992* (WA).
