# Application form: Works Approval / Licence / Renewal / Amendment / Registration

Part V Division 3, *Environmental Protection Act 1986*Environmental Protection Regulations 1987

## Part 1: Application type

## INSTRUCTIONS:

- Completion of this form is a statutory requirement under s.54(1)(a) of the Environmental Protection Act 1986 (WA) (EP Act) for works approval applications; s.57(1)(a) for licence and licence renewal applications; s.59B(1)(a) for applications for an amendment; and under r.5B(2)(a) of the Environmental Protection Regulations 1987 (WA) (EP Regulations) for applications for registration of premises.
- . The instructions set out in this application form are general in nature.
- A reference to 'you' in these instructions is a reference to the applicant.
- The information provided to you by the Department of Water and Environmental Regulation (DWER) in relation to making applications does not constitute legal advice. DWER recommends that you obtain independent legal advice.
- Applicants seeking further information relating to requirements under the EP Act and/or EP Regulations
  are directed to the Parliamentary Counsel's Office website (<u>www.legislation.wa.gov.au</u>). Schedule 1 of the
  EP Regulations contains the categories of prescribed premises.
- For prescribed premises where activities fall within more than one category, ALL applicable categories
  must be identified. This applies for existing prescribed premises seeking renewal or amendment, as well
  as new prescribed premises.
- The application form must be completed with all relevant information attached. Attachments can be
  combined and submitted as one or more consolidated documents if desired, provided it is clear which
  section of the application form the information / attachments relate to. Where attachments are submitted
  separately, avoid duplicating information. Ensure that any cross-references between the application form
  and the supporting document(s) are accurate.
- If an application form has been submitted which is incomplete or materially incorrect, the Chief Executive
  Officer of DWER (CEO) will decline to deal with the application and advise the applicant accordingly.
- On completing this application form, please submit it to DWER in line with the instructions in Part 15 of the form.

th	e form.					
1.1	This is an application for: [Select one option only. Your application may be returned if multiple options are selected.]  under Part V, Division 3 of the EP Act.  Please see the:  • Guideline: Industry Regulation Guide to Licensing  • Procedure: Prescribed premises works approvals and licences  for more information to assist in understanding DWER's regulatory regime for prescribed premises.	<ul> <li>☑ Works approval</li> <li>☐ Licence         Existing registration number(s): [ ]         Existing works approval number(s): [ ]</li> <li>☐ Renewal         Existing licence number: [ ]</li> <li>☐ Amendment         Number of the existing licence or works approval to be amended: [ ]</li> <li>☐ Registration (works approval already obtained)         Existing works approval number(s): [ ]</li> </ul>				
1.2	days until the expiry of the existing works Only active instruments can be amended. Ap	oplications to amend a works approval or licence or to the existing works approval or licence expiring				
1.3	This application is for the following categories of prescribed premises:  (specify all prescribed premises category numbers)	[ Category 19 ]  Edible oil or fat processing: premises on which vegetable oil or oil seed or animal fat is processed and from which liquid waste is or is to be discharged onto land or into waters (200 tonnes or more per year).				
		All activities that meet the definition of a prescribed premises as set out in Schedule 1 of the EP Regulations have been specified above (tick, if yes).

### Part 2: Applicant details

### INSTRUCTIONS:

- The applicant (the occupier of the premises) must be an individual(s), a company, body corporate, or
  public authority, but not a partnership, trust, or joint-venture name. Applications made by or on behalf of
  business names or unincorporated associations will not be accepted.
- . If applying as an individual, your full legal name must be provided.
- If applying as a company, body corporate, or public authority, the full legal entity name must be inserted.
- . Australian Company Number's (ACN) must be provided for all companies or body corporates.
- DWER prefers to send all correspondence electronically via email. We request that you consent to
  receiving all correspondence relating to instruments and notices under Part V of the EP Act (Part V
  documents) electronically via email, by indicating your consent in Section 2.3.
- Companies or body corporates making an application must nominate an authorised representative from
  within their organisation. Proof of authorisation must be submitted with the application (see Section 2.10).
  If you are applying as an individual, you are the representative.
- Details of a contact person must be provided for DWER enquiries in relation to your application. This
  contact person can be a consultant if authorised to represent the applicant. Written evidence of this
  authorisation must be provided.
- Details of the occupier of the premises must be provided. One of the options must be selected and if you
  have been asked to specify, please provide details. For example, if 'lease holder' has been selected,
  please specify the type of lease (for example, pastoral lease, mining lease, or general lease) and provide a
  copy of the lease document(s). Note that contracts for sale of land will not be sufficient evidence of
  occupancy status.

## Part 4: Proposed activities

### INSTRUCTIONS:

- You must provide a description and the scope, size and scale of all prescribed activities of Schedule 1 to the EP Regulations including the maximum production or design capacity of each prescribed activity.
- If applying for a works approval or licence amendment involving the construction of new infrastructure, you must provide information on infrastructure to be constructed and how long construction is expected to take. You must confirm if commissioning is to occur and how long it will take.
- If applying for a works approval or licence amendment not involving the construction of new infrastructure, provide details of the proposed amendment.
- You must identify all emission sources on the premises map/s.
- You must also provide information on activities which directly relate to the prescribed premises category
  which have, or are likely to result in, an emission or discharge.
- If clearing activities are proposed provide a description and details. If a relevant exemption under Schedule 6 of the EP Act or r.5 of the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (Clearing Regulations) may apply, provide details.
- Note that in some cases, DWER may require that the clearing components of a works approval or licence (or amendment) application be submitted separately through the clearing permit application process.
   Refer to the <u>Procedure: Prescribed premises works approvals and licences</u> for further guidance.
- Please note that the requested information is critical to DWER's understanding of the proposed activities.
   The more accurate, specific, and complete the information provided in the application, the less uncertainty that DWER may identify in the application, therefore facilitating completion of the assessment in a more efficient and timely manner.

### 4.1 Prescribed premises infrastructure and equipment

In Table 4.1 (below), provide a list of all items of infrastructure and equipment within the boundary of the prescribed premises relevant to this application, and include the following details for each:

- relevant categories (if known) the categories of prescribed premises (as listed under Schedule 1
  of the EP Regulations) that relate to that infrastructure or equipment;
- site plan reference the location of that infrastructure or equipment (with reference to the site plan
  map or maps provided above in Section 3.4 and labelled as Attachment 2 e.g. use GPS
  coordinates or a clear description such as "labelled as [label on premises map] on Map A");
- is it critical containment infrastructure (CCI)? indicate if the identified infrastructure or equipment would be categorised as CCI. Refer to the <u>Guideline: Industry Regulation Guide to</u> <u>Licensing</u> for further information on CCI; and
- is environmental commissioning required? indicate if environmental commissioning is intended
  to be undertaken for that item of infrastructure or equipment. Refer to the <u>Guideline</u>: <u>Industry</u>
  Regulation <u>Guide to Licensing</u> for further information on environmental commissioning.

Add additional rows to Table 4.1 (below) as required.

Table 4.1: Infrastructure and equipment

	Infrastructure and equipment	Relevant categories (if known)	Site plan reference	CCI? (mark if yes)	Environmental commissioning? (mark if yes)
1.	Canola crushing plant with a production capacity of 3,000 tons per day	19	Figure 2, Attachment 8		Ø
2.	Storage areas including canola seed and meal silos		Labelled 'Silos' on Figure 2, Attachment 8		
3.	Biomass fuel storage, a steam boiler, and ash treatment facilities		Labelled 'Gas Boiler' on Figure 2, Attachment 8		×
4.	Oil tank farm and a refinery with subsidiary tank farms		Labelled 'Oil Tank Farm' on Figure 2, Attachment 8		
5.	Lab and maintenance workshop.		Labelled 'Office' and 'Lab' on Figure 2, Attachment 8		
6.	Wastewater treatment and stormwater pit		Labelled 'WWTP' on Figure 2, Attachment 8		⊠
7.	Facilities for solvent storage, extraction, and recovery, including underground storage tanks		Labelled 'Extraction building' on Figure 2, Attachment 8		×
8.	Enclosed and sealed preparation building to minimise fugitive emissions, with a negative pressure environment		Labelled 'Preparation building' on Figure 2, Attachment 8		×
9.	Open-designed extraction building with minimal walls, containing and extracting processes through point-level systems due to the use of hexane and odors from the solvent extraction system		Labelled 'Extraction building' on Figure 2, Attachment 8		
10.	Infrastructure to facilitate hexane and hydrogen sulfide emissions into an extraction biofilter		Not labelled in figures as will be installed within the preparation and extraction buildings:		⊠
11.	Barometric louvers and point source extraction systems for managing airflow and capturing foul air		Not labelled in figures as will be installed within the preparation building.		
12.	Parking lot and various utility stations		Labelled 'carpark' on Figure 2, Attachment 8		

#### Part 4: Proposed activities

## 4.2 Detailed description of proposed activities or proposed changes (if an amendment):

You must provide details of proposed activities relevant to this application within the boundary of the prescribed premises, identifying:

- scope, size, and scale of the project, including details as to production or design capacity (and/or frequency, if applicable);
- · key infrastructure and equipment;
- description of processes or operations (a process flow chart may be included as an attachment);
- emission / discharge points;
- · locations of waste storage or disposal
- activities occurring during construction, environmental commissioning, and operation (if applicable).

If assessment and imposition of conditions to allow environmental commissioning to be undertaken are requested, please provide an environmental commissioning plan as Attachment 3A (see 4.11 below).

Additional information relating to the proposed activities may be included in Attachment 3B (see 4.12 below).

### Construction activities (if applicable):

- Clearing of remnant vegetation, basic soil decontamination works, landscaping.
- Construction of the Crux Plant infrastructure and equipment.

### Environmental commissioning activities (if applicable):

Refer to the Guideline: Industry Regulation Guide to Licensing for further guidance.

Refer to Attachment 3A.

### Time limited operations activities (if applicable):

Different elements of the premises may require time limited operations to commence at different times. In these circumstances, please specify the infrastructure and/or equipment for which time limited operations authorisation is being applied for.

If time limited operations are expected to differ from future licensed operations, specify how and why this would be the case.

Refer to the <u>Guideline: Industry Regulation Guide to Licensina</u> for further guidance.

Refer to Attachment 3A.

Time-limited operations will commence post commissioning for a period of 180 days, in which time a licence application will be submitted to DWER to transition the premises from a works approval to a licence.

#### Operations activities (for a licence):

N/A

4.3	Estimated operating period of the project / premises (e.g. based on estimated infrastructure life):	60 years
4.4	Proposed date(s) for commencement of works (if applicable):	Q2 2025 (pending timeline for project approval)
4.5	Proposed date(s) for conclusion of works construction (if applicable):  Q2 2026 (pending timeline for project approval)	
	This date should coincide with the submission to DWER of an Environmental Compliance Report(s) and/or a Critical Containment Infrastructure Report(s) as required.	
	Refer to the Guideline: Industry Regulation Guide to Licensing.	
4.6	Proposed date(s) for environmental commissioning of works (if applicable):  Q2-Q3 2026 (pending tire project approval)	
	Refer to the Guideline: Industry Regulation Guide to Licensing.	
4.7	Proposed date/s for commencement of time limited operations under works approval (if applicable):	Q4 2026 (pending timeline for project approval)
	Refer to the Guideline, Industry Regulation Guide to Licensing.

Part 9: Emissions, discharges, and wast	e
---	---

## INSTRUCTIONS:

- Please see <u>Guideline: Risk Assessments</u> and provide all information relating to emission sources, pathways and receptors relevant to the application.
- You must provide details on sources of emissions (for example, kiln stack, baghouses or discharge pipelines) including fugitive emissions (for example, noise, dust or odour), types of emissions (physical, chemical, or biological), and volumes, concentrations and durations of emissions.
- The potential for emissions should be considered for all stages of the proposal (where relevant), including during construction, commissioning and operation of the premises.

		No	Yes

Part 1	Part 10: Siting and location		
10.1	Sensitive land uses  What is/are the distance(s) to the nearest sensitive land use(s)?  A sensitive land use is a residence or other land use which may be affected by an emission or discharge associated with the proposed activities.	Refer to Attachment 8 for all information regarding nearby sensitive land uses.	
10.2	Nearby environmentally sensitive receptors and aspects identify in Table 10.2 (below):		

## Part 10: Siting and location

- all instances of environmentally sensitive receptors that are known or suspected to be present within, or within close proximity to, the proposed prescribed premises boundary;
- the nature of the sensitive receptors (e.g. type of Threatened Ecological Community, species or threatened flora or fauna, etc.);
- their actual or approximate known distance and direction from the premises boundary (at the closest point/s); and
- if applicable, what measures have been or will be taken to ensure that sensitive receptors are not
  adversely impacted by any emissions or discharges from the premises.

Refer to the Guideline: Environmental siting for further guidance.

Table 10.2: Nearby environmentally sensitive receptors and aspects

Type / classification	Description	Distance + direction to premises boundary	Proposed controls to prevent or mitigate adverse impacts (if applicable)
Environmentally Sensitive Areas <sup>1</sup>	Refer to Attachment 8 for all information regarding sensitive receptors.		
Threatened Ecological Communities			
Threatened and/or priority fauna			
Threatened and/or priority flora			
Aboriginal <mark>a</mark> nd other heritage sites <sup>2</sup>			
Public drinking water source areas 3			
Rivers, lakes, oceans, and other bodies of surface water, etc.			
Acid sulfate soils			
Other			

<sup>&</sup>lt;sup>2</sup> Refer to the <u>Department of Planning, Lands and Heritage website</u> for further information about Aboriginal heritage and other heritage sites.

## 10.3 Environmental siting context details

Provide further information including details on topography, climate, geology, soil type, hydrology, and hydrogeology at the premises.

Refer to Attachment 8 for all information regarding environmental siting context. The following section (10.4) has also been addressed in Attachment 8.

Attach	Attachments		N/A	Yes
10.4	Attachment 7: Siting and location	You must provide details and a map describing the siting and location of the premises, including identification of distances to sensitive land uses and/or any specified ecosystems.		

Part 11: Submission of any other relevant information		
Attachments	No	Yes

<sup>&</sup>lt;sup>3</sup> Refer to <u>Water Quality Protection Note No.25: Land use compatibility tables for public drinking water source areas for further information.</u>

11.1	Attachment 8: Additional information	Applicants seeking to submit further information may include information labelled Attachment 8. If submitting multiple additional attachments, label them 8A, 8B, etc.		×
	submitted	ubmitted Where additional documentation is submitted, please specify the name of documents below.		
	List title of additional document(s) attached:	Attachment 8_Cargill Project Crux WA Supporting Information	80	

Attachments		N/A	Yes	
12.1	Attachment 9: Category	DWER has developed category checklists to assist applicants with preparing their application.	⊠	
	checklist(s)	These checklists are available on <u>DWER's website</u> .		
		The relevant category-specific checklist(s) must be completed and included with the application, labelled as Attachment 9. If attaching multiple category checklists, label them 9A, 9B, etc.		
		Do not select "N/A" unless:		
		<ul> <li>a relevant category checklist is not yet published on DWER's website, or</li> </ul>		
		<ul> <li>the application is for an amendment that does not propose changes to the method of operation, or change the inputs, outputs, infrastructure, equipment, emissions, or discharges of / from the premises.</li> </ul>		
		Note that that a category checklist(s) may still be required for renewal applications. You will be advised in your renewal notification letter (sent approximately twelve months before the licence expiry date) if you are required to provide the information identified in a category checklist.		
		Where a category checklist is submitted, please specify which checklist(s) in the space below.		

## Part 13: Proposed fee calculation

## INSTRUCTIONS:

Please calculate the prescribed fee using the relevant online fee calculator linked below.

- Licence: www.der.wa.gov.au/LicenceFeeCalculator
- Works approval: www.der.wa.gov.au/WorksApprovalFeeCalculator
- Amendment: https://www.wa.gov.au/government/publications/works-approval-and-licenceamendment-fee-calculator

Different fee units apply for different fee components. Fee units may also have different amounts depending on the period in which the calculation is made.

Once DWER has confirmed that the application submitted meets the relevant requirements of the EP Act, you will be issued an invoice with instructions for paying your application fee.

Furthe	r information on fees can be found in the Fact Sheet: In	ndustry Regulation fees, and on DWER's w	ebsite.
13.1	Only the relevant fee calculations are to be completed as follows:  [mark the box to indicate sections completed]	Section 13.3 for works approval applica     Section 13.4 for licence / renewal applica     Section 13.5 for registration applications     Section 13.6 for amendment application     Section 13.7 for applications requiring of native vegetation	cations s
13.2	All information and data used for the calculation of prop accordance with Section 13.8.	osed fees has been provided in	
13.3	Proposed works approval fee		
Propos	ed works approval fee (see Schedule 3 of the EP Regulation	ons)

Costs e	exclude:		
- th	e cost of land		
- th	e cost of buildings to be used for purposes unrelated to the	purposes in respect of which the premises a	re, or

- will become, prescribed premises
- costs for buildings unrelated to the prescribed premises activity or activities
- consultancy fees relating to the works.

Fee component	Proposed fee
Cost of works:	

## 13.4 Proposed licence fee (new licences and licence renewals)

#### Detailed licence fee calculations

Part 1 Premises component (see r.5D and Part 1 of Schedule 4 of the EP Regulations)

The production or design capacity should be the maximum capacity of the premises. For most categories, the production or design capacity refers to an annual rate. The figure should be based on 24 hour operation for 365 days, unless there is another regulatory approval or technical reason that restricts operation.

The premises component fee applies to the category in Part 1, Schedule 4 incurring the higher or highest amount of fee units in accordance with r.5D(2) of the EP Regulations.

List all categories (insert additional rows as required). Use only the higher or highest amount of fee units to determine the Part 1 fee component.

Category	Production or design capacity	Fee units	
Using the higher or high	est amount of fee units, Part 1 component subtota	al S	

## Part 2 Waste (see r.5D(1a)(b) and Part 2 of Schedule 4 of the EP Regulations)

If your premises includes one or more of the following categories specify any applicable Part 2 waste amounts. Do not include Part 3 waste components of these discharges in the below calculations.

Categories: 5, 6, 7, 8, 9, 12, 14, 44, 46, 53, 54A, 70, 80, or 85B

Part 2 waste means waste consisting of -

- (a) tailings; or
- (b) bitterns; or
- (c) water to allow mining of ore; or
- (d) flyash; or
- (e) waste water from a desalination plant.

If the premises does not fall into one of the categories listed above, or there are no applicable Part 2 waste amounts, the sub total for this section will be \$0.

Insert additional rows as required. Sum all Part 2 waste fees to determine the sub total.

Discharge quantity (tonnes/year)	Fee units
Part 2 component subtotal	\$

## Part 3 Waste - Discharges to air, onto land, into waters (see Part 3 of Schedule 4 of the EP Regulations)

Choose the appropriate location of the discharge and enter the discharge amount(s) in the units specified in the EP Regulations. This should be the amount of waste expected to be discharged over the next 12 months, expressed in the units and averaging period applicable for that waste kind (for example, g/minute or kg/day). Amounts can be measured, calculated, or estimated and can be based on data acquired over the previous 12 months, but should be based on the maximum premises capacity and not the forecast operating hours.

Where there are discharges, all prescribed waste types must be considered in the fee calculation. If a specified waste type is not present in the discharge, this must be justified using an appropriate emission estimation technique (for example, sampling data, industry sector guidance notes, National Pollution Inventory guides and emission factors).

201 N 201 N	Discharge rate	000 W 11	Discharge rate
Discharges to air	(g/min)	Discharges to air	(g/min)

Part 3 Component		
Total proposed licence fees:		\$
13.5 Prescribed fee for registration		
A fee of 24 units applies for an application for occupier of the premises holds a licence in re accordance with r.5B(2)(c) of the EP Regulat	spect of the premises, in	ck to acknowledge)

#### 13.6 Amendment fee (works approval or licence)

The fee prescribed for an application for an amendment to a works approval or licence is calculated in accordance with r.5BB(1)(a) of the EP Regulations:

- for a single category of prescribed premises to which the works approval or licence relates, by using the fee
  unit number corresponding to the prescribed premises category and relevant design capacity threshold in
  Schedule 4 Part 1 of the EP Regulations.
- for multiple categories of prescribed premises to which the works approval or licence relates, by using the highest fee unit number corresponding to the prescribed premises categories and design capacity threshold in Schedule 4 Part 1 of the EP Regulations.

Fee Units Proposed fee S 137 Prescribed fee for clearing permit In accordance with the Guideline: Industry Regulation Guide to Licensing and Procedure: Native vegetation clearing permits, where approval to clear native vegetation is sought as part of an application for a works approval or licence, DWER may elect to either jointly or separately determine the clearing component of the application. Where DWER separately determines the clearing component of an application, the application will be deemed to be an application for a clearing permit under s.51E of the EP Act and processed accordingly. Note: If a clearing permit application has been separately submitted and accepted by DWER, a refund for the clearing permit application will not be provided where DWER determines to address clearing requirements as part of a related works approval application.

## 13.8 Information and data used to calculate proposed fees

The detailed calculations of fee components, including all information and data used for the calculations are to be provided as attachments to this application, labelled as Attachment 10, with an appropriate suffix (for example 10A, 10B etc.). Please specify the relevant attachment number in the space/s provided below.

Proposed fee for works approval	Attachment No.
Details for cost of works	Attachment 10A
Proposed fee for licence	Attachment No.
Part 1: Premises	N/A
Part 2: Waste types	N/A
Part 3: Discharges to air, onto land, into waters	N/A

## Part 14: Commercially sensitive or confidential information

#### NOTE

Information submitted as part of this application will be made publicly available. If you wish to submit commercially sensitive or confidential information, please identify the information in Attachment 11, and include a written statement of reasons why you request each item of information be kept confidential.

Information submitted later in the application process may also be made publicly available at DWER's discretion. For any commercially sensitive or confidential information, please follow the same process as described above.

DWER will take reasonable steps to protect genuinely confidential or commercially sensitive information. However, please note that DWER cannot commit to redacting all personal information from all supporting documents. You are advised to ensure that all personal information, including signatures, are removed from supporting documents prior to submitting them to the department. Please note that all submitted information may be the subject of an application for release under the *Freedom of Information Act 1992*.

All information which you would propose to be exempt from public disclosure has been	Attached	N/A
separately placed in a redacted version of the application form and its supporting documentation. Note that this is in addition to the unredacted version(s) provided to DWER for its assessment. Grounds for claiming exemption in accordance with Schedule 1 to the Freedom of Information Act 1992 must be specified in Attachment 11 (located at the end of this form).		$\boxtimes$

Part 15: Submission of application	
INSTRUCTIONS:  Check one of the boxes below to nominate how you will submit your application.  Files larger than 50MB cannot be received via email by DWER. Files larger than 50MB can be sent via Files Transfer. Alternatively, email DWER to make other arrangements.	ile

### Part 16: Declaration and signature

#### General

I / We confirm and acknowledge that:

- the information contained in this application is true and correct;
- I / we have legal authority to sign on behalf of the applicant (where authorisation provided);
- I / we have not altered the requirements and instructions set out in this application form;
- I / we have provided a valid email address in Section 2.3 for receipt of correspondence electronically via email
  from DWER in relation to this application;
- that successful delivery to my / our server constitutes receipt of correspondence sent electronically via email from DWER in relation to this application; and
- I / we have provided a valid postal and/or business address in Section 2.4 for the service of all Part V documents.
- giving or causing to be given information that to my knowledge is false or misleading is an offence under s.112
  of the EP Act and may incur a penalty of up to \$100,000.

#### **Publication**

I / We confirm and acknowledge:

- this application (including all attachments apart from the sections identified in Attachment 11) is a public
  document and may be published;
- marine surveys provided in accordance with Part 5 will be published and used, for the purposes of the IMSA project, in accordance with your declaration made in the Metadata and Licensing Statement;
- all necessary consents for the publication of information have been obtained from third parties;
- Information considered exempt from public disclosure has been noted by redaction of a separately provided copy of the completed application form and its supporting documentation (in accordance with Part 14), with reasons as to why the information should be exempt in accordance with the grounds specified in Schedule 1 to the Freedom of Information Act 1992 (WA) being provided in Attachment 11;
- subsequent information provided in relation to this application will be a public document and may be published
  unless written notice has been given to DWER by the applicant, at the time the information is provided, claiming
  that the information is considered exempt from public disclosure; and
- the decision to not publish information will be at the discretion of the CEO of DWER and will be made consistently with the provisions of the Freedom of Information Act 1992 (WA).
