

Application form: / Works Approval / Licence / Renewal / _Amendment / Registration

> Part V, Division 3, Environmental Protection Act 1986 Environmental Protection Regulations 1987

Part 1: Application type

INSTRUCTIONS:

- Completion of this form is a statutory requirement under section 54(1)(a) of the *Environmental Protection Act 1986* (WA) (EP Act) for works approval applications; section 57(1)(a) for licence applications; section 59B(1)(a) for applications for an amendment; and under regulation 5B(2)(a) of the *Environmental Protection Regulations 1987* (WA) (EP Regulations) for applications for registration of premises.
- The instructions set out in this application form are general in nature.
- A reference to 'you' in these instructions is a reference to the applicant.
- The information provided to you by the Department of Water and Environmental Regulation (DWER) in relation to making applications does not constitute legal advice. DWER recommends that you obtain independent legal advice.
- Applicants seeking further information relating to requirements under the EP Act and/or EP Regulations are directed to the Parliamentary Counsel's Office website (<u>www.legislation.wa.gov.au</u>). Schedule 1 of the EP Regulations contains the categories of prescribed premises.
- For prescribed premises where activities fall within more than one category, ALL applicable categories must be identified. This applies for existing prescribed premises seeking renewal or amendment, as well as new prescribed premises.
- The application form must be completed with all relevant information attached. Attachments can be combined and submitted as one or more consolidated documents if desired, provided it is clear which section of the application form the information / attachments relate to. Where attachments are submitted separately, avoid duplicating information. Ensure that any cross-references between the application form and the supporting document(s) are accurate.
- If an application form has been submitted which is incomplete or materially incorrect, the Chief Executive Officer of DWER (CEO) will decline to deal with the application and advise the applicant accordingly.
- On completing this application form, please submit it to DWER in line with the instructions in Part 14 of the form.

1.1	This is an application for: [Select one option only. Your application	Works approval
	may be returned if multiple options are selected.]	x Licence Existing registration number(s): []
	under Part V, Division 3 of the EP Act.	Existing works approval number(s): []
	Please see the:	Renewal

Part 2: Applicant details

INSTRUCTIONS:

- The applicant (the occupier of the premises) must be an individual(s), a company, body corporate, or public authority, but not a partnership, trust, or joint-venture name. Applications made by or on behalf of business names or unincorporated associations will not be accepted.
- If applying as an individual, your full legal name must be inserted.
- If applying as a company, body corporate, or public authority, the full legal entity name must be inserted.
- Australian Company Number's (ACN) must be provided for all companies or body corporates.
- DWER prefers to send all correspondence electronically via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act (Part V documents) electronically via email, by indicating your consent in Section 2.3.
- Companies or body corporates making an application must nominate an authorised representative from within their organisation. Proof of authorisation will be required.
- Details of a contact person must be provided for DWER enquiries in relation to your application. This contact person can be a consultant if authorised to represent the applicant. Written evidence of this authorisation must be provided.
- Details of the occupier of the premises must be provided. One of the options must be selected and if you have been asked to specify, please provide details. For example, if 'lease holder' has been selected, please specify the type of lease (for example, pastoral lease, mining lease, or general lease) and provide a copy of the lease document(s). Note that contracts for sale of land will not be sufficient evidence of occupancy status.

2.1	Applicant name/s (full legal name/s): The proposed holder of the works approval, licence or registration.			
	ACN (if applicable):			
2.2	Trading as (if applicable):	Mortlock Malt		
2.3	Authorised representative details:	Name		
	The person authorised to receive correspondence and Part V documents on behalf of the applicant under the EP Act.	Position		
	Where 'yes' is selected, all correspondence will be sent	Telephone		
	to you via email, to the email address provided in this section.	Email		
Where 'no' has been selected, Part V documents will be posted to you in hard copy to the postal / business address specified in section 2.4, below. Other general correspondence may still be		I consent to all written correspondence between myself (the applicant) and DWER, regarding the subject of this application, being exclusively via email, using the email address I have provided above. Part 4: Proposed activities

INSTRUCTIONS:

- You must provide a description and the scope, size and scale of all prescribed activities of Schedule 1 to the EP Regulations including the maximum production or design capacity of each prescribed activity.
- If applying for a works approval or licence amendment involving the construction of new infrastructure, you must provide information on infrastructure to be constructed and how long construction is expected to take. You must confirm if commissioning is to occur and how long it will take.
- If applying for a works approval or licence amendment *not* involving the construction of new infrastructure, provide details of the proposed amendment.
- You must identify all emission sources on the premises map/s.
- You must also provide information on activities which directly relate to the prescribed premises category which have, or are likely to result in, an emission or discharge.
- If clearing activities are proposed provide a description and details. If a relevant exemption under Schedule 6 of the EP Act or regulation 5 of the *Environmental Protection (Clearing of Native Vegetation)* Regulations 2004 (WA) (Clearing Regulations) may apply, provide details.
- Note that in some cases, DWER may require that the clearing components of a works approval or licence (or amendment) application be submitted separately through the clearing permit application process. Refer to the <u>Procedure: Prescribed premises works approvals and licences</u> for further guidance.
- Please note that the requested information is critical to DWER's understanding of the proposed activities. The more accurate, specific, and complete the information provided in the application, the less uncertainty that DWER may identify in the application, therefore facilitating completion of the assessment in a more efficient and timely manner.

4.1 **Prescribed premises infrastructure and equipment**

In Table 4.1 (below), provide a list of all items of infrastructure and equipment within the boundary of the prescribed premises relevant to this application, and include the following details for each:

- relevant categories (if known) the categories of prescribed premises (as listed under Schedule 1 of the EP Regulations) that relate to that infrastructure or equipment;
- **site plan reference** the location of that infrastructure or equipment (with reference to the site plan map or maps provided above in section 3.4 and labelled as Attachment 2 e.g. use GPS coordinates or a clear description such as *"labelled as [label on premises map] on Map A"*);
- is it critical containment infrastructure (CCI)? indicate if the identified infrastructure or equipment would be categorised as CCI. Refer to the <u>Guideline: Industry Regulation Guide to</u> <u>Licensing</u> for further information on CCI; and
- is environmental commissioning required? indicate if environmental commissioning is intended to be undertaken for that item of infrastructure or equipment. Refer to the <u>Guideline: Industry</u> <u>Regulation Guide to Licensing</u> for further information on environmental commissioning.

Add additional rows to Table 4.1 (below) as required.

•An	nendment: www.der.wa.gov.au/AmendmentFeeCalcula	<u>itor</u>		
	t fee units apply for different fee components. Fee uni period in which the calculation is made.	ts may also have	e different amounts deper	nding
	WER has confirmed that the application submitted me		equirements of the EP A	ct, you
	ssued an invoice with instructions for paying your app information on fees can be found in the <i>Fact Sheet: In</i>		n fees available from DV	VFR'e
website.				VLIX S
12.1	Only the relevant fee calculations are to be completed as follows:	Section 12.4	for works approval applica for licence or renewal appl	lications
	[mark the box to indicate sections completed]		for registration applications	
			for amendment application	
		of native vegetat	for applications requiring c tion	learing
12.2	12.2 All information and data used for the calculation of proposed fees has been provided in accordance with section 12.8.			\boxtimes
12.3	12.3 Proposed works approval fee			
Proposed works approval fee (see Schedule 3 of the EP Regulations)				
Fees relate to the cost of the works, including all capital costs (inclusive of GST) associated with the construction and establishment of the works proposed under the works approval application. This includes, for example, costs associated with earth works, hard stands, drainage, plant hire, equipment, processing plant, relocation of equipment and labour hire.				
Costs exclude:				
- the cost of land;				
 the cost of buildings to be used for purposes unrelated to the purposes in respect of which the premises are, or will become, prescribed premises; costs for buildings unrelated to the prescribed premises activity or activities; and 				
- consultancy fees relating to the works.				
Fee com	nponent		Proposed fee	

12.4 Proposed licence fee (new licences and licence renewals)

Detailed licence fee calculations

Part 1 Premises component (see regulation 5D and Part 1 of Schedule 4 of the EP Regulations)

The production or design capacity should be the maximum capacity of the premises. For most categories the production or design capacity refers to an annual rate. The figure should be based on 24 hour operation for 365 days, unless there is another regulatory approval or technical reason that restricts operation.

The premises component fee applies to the category in Part 1, Schedule 4 incurring the higher or highest amount of fee units in accordance with regulation 5D(2) of the EP Regulations.

List all categories (insert additional rows as required). Use only the higher or highest amount of fee units to determine the Part 1 fee component.

Category	Production or design capacity	Fee units
See section 6 of works approval document		
Using the higher or highest amount of fee units, Part 1 component subtotal \$		

Using the higher or highest amount of fee units, Part 1 component subtotal

Part 2 Waste (see regulation 5D(1a)(b) and Part 2 of Schedule 4 of the EP Regulations)

If your premises includes one or more of the following categories specify any applicable Part 2 waste amounts. Do not include Part 3 waste components of these discharges in the below sections.

Categories: 5, 6, 7, 8, 9, 12, 14, 44, 46, 53, 54A, 70, 80, or 85B

Part 2 waste means waste consisting of -

- (a) tailings; or
- (b) bitterns; or
- (c) water to allow mining of ore; or
- (d) flyash; or
- (e) waste water from a desalination plant.

If the premises does not fall into one of the categories listed above, or there are no applicable Part 2 waste amounts, the sub total for this section will be \$0.

Insert additional rows as required. Sum all Part 2 waste fees to determine the sub total.

Discharge quantity (tonnes/year)	Fee units
See section 7 of works approval document	
Part 2 component subtotal	\$

Part 3 Waste - Discharges to air, onto land, into waters (see Part 3 of Schedule 4 of the EP Regulations)

Choose the appropriate location of the discharge and enter the discharge amount(s) in the units specified in the EP Regulations. This should be the amount of waste expected to be discharged over the next 12 months, expressed in the units and averaging period applicable for that waste kind (for example, g/minute or kg/day). Amounts can be measured, calculated, or estimated and can be based on data acquired over the previous 12 months, but should be based on the maximum premises capacity and not the forecast operating hours.

Where there are discharges, all prescribed waste types must be considered in the fee calculation. If a specified waste type is not present in the discharge, this must be justified using an appropriate emission estimation technique (for example, sampling data, industry sector guidance notes, National Pollution Inventory guides and emission factors).

Discharges to air

Summary – Proposed licence fee		
Part 1 Component		
Part 2 Component		
Part 3 Component		
Total proposed licence fees:	\$	

12.5 Prescribed fee for registration		
A fee of 24 units applies for an application for registration of premises, unless the occupier of the premises holds a licence in respect of the premises, in accordance with regulation $5B(2)(c)$ of the EP Regulations.	☐ (Tick to acknowledge)	
12.6 Works approval amendment or licence amendment fee		
Proposed works approval amendment or licence amendment fee (see Schedule 4 Par	rt 1 of the EP Regulations).	
The fee prescribed for an application for an amendment to a works approval or licence with regulation 5BB(1)(a) of the EP Regulations:	e is calculated in accordance	
 for a single category of prescribed premises to which the works approval or licence relates, by using the fee unit number corresponding to the prescribed premises category and relevant production or design capacity threshold in Schedule 4 Part 1 of the EP Regulations. 		
 for multiple categories of prescribed premises to which the works approval or licence relates, by using the highest fee unit number corresponding to the prescribed premises categories and production design or capacity threshold in Schedule 4 Part 1 of the EP Regulations. 		
The relevant fee unit under Schedule 4 Part 1 of the EP Regulations for calculating the application form amendment fee is to be determined by reference to the actual production or design capacity reported for the preceding year's annual licence fee. If an annual licence fee has not previously been paid or is not applicable as is the case for works approvals, the fee unit for an application for amendment is to be determined by reference to the production or design capacity currently prescribed in the licence or works approval.		
Fee Units Proposed fee		
12.7 Prescribed fee for clearing permit		
In accordance with the <u>Guideline: Industry Regulation Guide to Licensing</u> and <u>Procedure: Native vegetation clearing permits</u> , where an application for clearing of native vegetation is made as part of an application for a works approval or licence, DWER may elect to either jointly or separately determine the clearing component of the application.		
of the application. Where DWER separately determines the clearing component of an application, the application will be deemed to be an application for a clearing permit under section 51E of the EP Act. Note: If a clearing permit application has been separately submitted and accepted by DWER, a refund for the clearing permit application will not be provided where DWER determines to address clearing requirements as part of a related works approval application.	☑ (Tick to acknowledge)

Part 13: Commercially sensitive or confidential information

NOTE:

Information submitted as part of this application will be made publicly available. If you wish to submit commercially sensitive or confidential information, please identify the information in Attachment 10, and include a written statement of reasons why you request each item of information be kept confidential.

Information submitted later in the application process may also be made publicly available at DWER's discretion. For any commercially sensitive or confidential information, please follow the same process as described above.

DWER will take reasonable steps to protect genuinely confidential or commercially sensitive information. Please note in particular that all submitted information may be the subject of an application for release under the *Freedom of Information Act 1992*.

All information which you would propose to be exempt from public disclosure has been	Attached	N/A
separately placed in a redacted version of the application form and its supporting documentation. Note that this is in addition to the unredacted version(s) provided to DV for its assessment. Grounds for claiming exemption in accordance with Schedule 1 to the <i>Freedom of Information Act 1992</i> must be specified in Attachment 10 (located at the et this form).	the 🛛

Part 15: Declaration and signature

General

I/We confirm and acknowledge that:

- the information contained in this application is true and correct and I/we acknowledge that knowingly providing information which is false or misleading in a material particular constitutes an offence under section 112 of the *Environmental Protection Act 1986* (WA) and may incur a penalty of up to \$50,000;
- I/We have legal authority to sign on behalf of the applicant (where authorisation provided);
- I/We have not altered the requirements and instructions set out in this application form;
- I/We have provided a valid email address in Part 2.3 for receipt of correspondence electronically via email from DWER in relation to this application;
- I/We acknowledge that successful delivery to my/our server constitutes receipt of correspondence sent
 electronically via email from DWER in relation to this application; and
- I/We have provided a valid postal and/or business address in Part 2.4 for the service of all Part V documents.

Publication

I/We confirm and acknowledge:

- this application (including all attachments apart from the sections identified in Attachment 10) is a public document and may be published;
- marine surveys provided in accordance with Part 5 will be published and used, for the purposes of the IMSA
 project, in accordance with your declaration made in the *Metadata and Licensing Statement*;
- all necessary consents for the publication of information have been obtained from third parties;
- information considered exempt from public disclosure has been noted by redaction of a separately provided copy of the completed application form and its supporting documentation (in accordance with Part 13), with reasons as to why the information should be exempt in accordance with the grounds specified in Schedule 1 to the *Freedom of Information Act 1992* (WA) being provided in Attachment 10;
- subsequent information provided in relation to this application will be a public document and may be published unless written notice has been given to DWER by the applicant, at the time the information is provided, claiming that the information is considered exempt from public disclosure; and
- the decision to not publish information will be at the discretion of the CEO of DWER and will be made consistently with the provisions of the *Freedom of Information Act 1992* (WA).
