# Application form: Works Approval / Licence / Renewal / Amendment / Registration

Part V Division 3. Environmental Protection Act 1986
Environmental Protection Regulations 1987

# Part 1: Application type

# INSTRUCTIONS:

- Completion of this form is a statutory requirement under s.54(1)(a) of the Environmental Protection Act 1986 (WA) (EP Act) for works approval applications; s.57(1)(a) for licence and licence renewal applications; s.59B(1)(a) for applications for an amendment; and under r.5B(2)(a) of the Environmental Protection Regulations 1987 (WA) (EP Regulations) for applications for registration of premises.
- . The instructions set out in this application form are general in nature.
- A reference to 'you' in these instructions is a reference to the applicant.
- The information provided to you by the Department of Water and Environmental Regulation (DWER) in relation to making applications does not constitute legal advice. DWER recommends that you obtain independent legal advice.
- Applicants seeking further information relating to requirements under the EP Act and/or EP Regulations
  are directed to the Parliamentary Counsel's Office website (<a href="www.legislation.wa.gov.au">www.legislation.wa.gov.au</a>). Schedule 1 of the
  EP Regulations contains the categories of prescribed premises.
- For prescribed premises where activities fall within more than one category, ALL applicable categories
  must be identified. This applies for existing prescribed premises seeking renewal or amendment, as well
  as new prescribed premises.
- The application form must be completed with all relevant information attached. Attachments can be
  combined and submitted as one or more consolidated documents if desired, provided it is clear which
  section of the application form the information / attachments relate to. Where attachments are submitted
  separately, avoid duplicating information. Ensure that any cross-references between the application form
  and the supporting document(s) are accurate.
- If an application form has been submitted which is incomplete or materially incorrect, the Chief Executive
  Officer of DWER (CEO) will decline to deal with the application and advise the applicant accordingly.
- On completing this application form, please submit it to DWER in line with the instructions in Part 15 of the form.

### Part 2: Applicant details

### INSTRUCTIONS:

- The applicant (the occupier of the premises) must be an individual(s), a company, body corporate, or
  public authority, but not a partnership, trust, or joint-venture name. Applications made by or on behalf of
  business names or unincorporated associations will not be accepted.
- If applying as an individual, your full legal name must be provided.
- If applying as a company, body corporate, or public authority, the full legal entity name must be inserted.
- Australian Company Number's (ACN) must be provided for all companies or body corporates.
- DWER prefers to send all correspondence electronically via email. We request that you consent to
  receiving all correspondence relating to instruments and notices under Part V of the EP Act (Part V
  documents) electronically via email, by indicating your consent in Section 2.3.
- Companies or body corporates making an application must nominate an authorised representative from
  within their organisation. Proof of authorisation must be submitted with the application (see Section 2.10).
  If you are applying as an individual, you are the representative.
- Details of a contact person must be provided for DWER enquiries in relation to your application. This
  contact person can be a consultant if authorised to represent the applicant. Written evidence of this
  authorisation must be provided.
- Details of the occupier of the premises must be provided. One of the options must be selected and if you
  have been asked to specify, please provide details. For example, if 'lease holder' has been selected,
  please specify the type of lease (for example, pastoral lease, mining lease, or general lease) and provide a
  copy of the lease document(s). Note that contracts for sale of land will not be sufficient evidence of
  occupancy status.

2.1	Applicant name/s (full legal name/s): The proposed holder of the works approval, licence or registration.	Northern Star Resources (Carosue Dam) Pty Ltd

A spatial data package showing the Prescribed Boundary accompanies this application.	I Premise	es
Attac	hments			N/A	Yes
	Premises map(s)	showing the propose or 2. where available, a site plan as an ESi .shpprj, and .shx suitable portable di hard copy form):  • Geometry type:  • Coordinate sys longitude)  • Datum; GDA 20 You must also provide clearly identifying and lice	oh, map, and site plan of sufficient scale sed prescribed premises boundary  map of the proposed premises boundary and RI shapefile (accepted file types include .dbf, ) with the following properties (provided on a igital storage device, if submitting application in Polygon Shape tem: GDA 2020 (Geographic latitude / 020 (Geocentric Datum of Australia 2020). a map or maps of the prescribed premises, abelling: frastructure and buildings, clearly labelled;		×

### Part 4: Proposed activities

### INSTRUCTIONS:

- You must provide a description and the scope, size and scale of all prescribed activities of Schedule 1 to the EP Regulations including the maximum production or design capacity of each prescribed activity.
- If applying for a works approval or licence amendment involving the construction of new infrastructure, you must provide information on infrastructure to be constructed and how long construction is expected to take. You must confirm if commissioning is to occur and how long it will take.
- If applying for a works approval or licence amendment not involving the construction of new infrastructure, provide details of the proposed amendment.
- You must identify all emission sources on the premises map/s.
- You must also provide information on activities which directly relate to the prescribed premises category
  which have, or are likely to result in, an emission or discharge.
- If clearing activities are proposed provide a description and details. If a relevant exemption under Schedule 6 of the EP Act or r.5 of the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (Clearing Regulations) may apply, provide details.
- Note that in some cases, DWER may require that the clearing components of a works approval or licence (or amendment) application be submitted separately through the clearing permit application process.
   Refer to the <u>Procedure: Prescribed premises works approvals and licences</u> for further guidance.
- Please note that the requested information is critical to DWER's understanding of the proposed activities.
   The more accurate, specific, and complete the information provided in the application, the less uncertainty that DWER may identify in the application, therefore facilitating completion of the assessment in a more efficient and timely manner.

# 4.1 Prescribed premises infrastructure and equipment

In Table 4.1 (below), provide a list of all items of infrastructure and equipment within the boundary of the prescribed premises relevant to this application, and include the following details for each:

- relevant categories (if known) the categories of prescribed premises (as listed under Schedule 1
  of the EP Regulations) that relate to that infrastructure or equipment;
- site plan reference the location of that infrastructure or equipment (with reference to the site plan
  map or maps provided above in Section 3.4 and labelled as Attachment 2 e.g. use GPS
  coordinates or a clear description such as "labelled as [label on premises map] on Map A");
- is it critical containment infrastructure (CCI)? indicate if the identified infrastructure or
  equipment would be categorised as CCI. Refer to the <u>Guideline: Industry Regulation Guide to</u>
  <u>Licensing</u> for further information on CCI; and
- is environmental commissioning required? indicate if environmental commissioning is intended
  to be undertaken for that item of infrastructure or equipment. Refer to the <u>Guideline</u>: <u>Industry</u>
  Regulation <u>Guide to Licensing</u> for further information on environmental commissioning.

Add additional rows to Table 4.1 (below) as required.

### Table 4.1: Infrastructure and equipment

	Infrastructure and equipment	Relevant categories (if known)	Site plan reference	CCI? (mark if yes)	Environmental commissioning ? (mark if yes)

### Part 4: Proposed activities

# 4.2 Detailed description of proposed activities or proposed changes (if an amendment):

You must provide details of proposed activities relevant to this application within the boundary of the prescribed premises, identifying:

- scope, size, and scale of the project, including details as to production or design capacity (and/or frequency, if applicable);
- key infrastructure and equipment;
- description of processes or operations (a process flow chart may be included as an attachment);
- · emission / discharge points;
- locations of waste storage or disposal
- activities occurring during construction, environmental commissioning, and operation (if applicable).

If assessment and imposition of conditions to allow environmental commissioning to be undertaken are requested, please provide an environmental commissioning plan as Attachment 3A (see 4.11 below). Additional information relating to the proposed activities may be included in Attachment 3B (see 4.12 below).

### Construction activities (if applicable):

Refer to Attachment 3B

# Environmental commissioning activities (if applicable):

Refer to the Guideline: Industry Regulation Guide to Licensing for further guidance.

N/A- Refer to Attachment 3B

#### Time limited operations activities (if applicable):

Different elements of the premises may require time limited operations to commence at different times. In these circumstances, please specify the infrastructure and/or equipment for which time limited operations authorisation is being applied for.

If time limited operations are expected to differ from future licensed operations, specify how and why this would be the case.

Refer to the Guideline: Industry Regulation Guide to Licensing for further guidance.

Refer to Attachment 3B. Time Limited operations activities requested for Category 5 and Category 12.

### Operations activities (for a licence):

N/A

4.3	Estimated operating period of the project / premises (e.g. based on estimated infrastructure life):	34 months
4.4	Proposed date(s) for commencement of works (if applicable):	1 December 2025
4.5	Proposed date(s) for conclusion of works construction (if applicable):	1 February 2026
	This date should coincide with the submission to DWER of an Environmental Compliance Report(s) and/or a Critical Containment Infrastructure Report(s) as required.	
	Refer to the Guideline; Industry Regulation Guide to Licensing.	
4.6	Proposed date(s) for environmental commissioning of works (if applicable):	N/A
	Refer to the Guideline: Industry Regulation Guide to Licensing.	
4.7	Proposed date/s for commencement of time limited operations under works approval (if applicable):  Refer to the <u>Guideline: Industry Regulation Guide to Licensing</u> .	1 February 2026

Part 6	6: Other DWER approvals	
• 1 a	application, you must provide relevant details.	approvals within DWER that may be relevant to this osal to the Environmental Protection Authority (EPA),
Pre-a	pplication scoping	
6.1	Have you had any pre-application / pre- referral / scoping meetings with DWER regarding any planned applications?	➤ No     ➤ Yes – provide details:  Northern Star meets with DWER quarterly to provide updates on upcoming applications. The Kurnalpi project was included in updates provides to DWER on 4/2/2025 and 11/11/2024. The focus of these meetings is on resourcing assessments and application timelines rather than application scoping.
Envir	onmental impact assessment (Part IV of the EP	Act)
6.2	Have you referred or do you intend to refer the proposal to the EPA?  Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if limplemented, to have a significant effect on the environment".  If DWER considers that the proposal in this application is likely to constitute a 'significant proposal', DWER is required under s.38(5) of the EP Act to refer the proposal to the EPA for assessment under Part IV, if such a referral has not already been made.  If a relevant Ministerial Statement already exists, please provide the MS number in the space provided.	□ Yes (referred) – reference (if known): [ ]      □ Yes – intend to refer (proposal is a 'significant proposal') □ Yes – intend to refer (proposal will require a s.45C amendment to the current Ministerial Statement): MS [ ]      □ No – a valid Ministerial Statement applies: MS [ ]      □ No – not a 'significant proposal'
Clear	ing of native vegetation (Part V Division 2 of the	EP Act and Country Area Water Supply Act 1947)
6.3	Have you applied or do you intend to apply for a native vegetation clearing permit?  In accordance with the <i>Guideline Industry</i> Regulation Guide to Licensing and Procedure: Native vegetation clearing permits, where cleaning of native vegetation:  • is exempt under Schedule 6 of the EP Act or the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (refer to A quide to the exemptions and regulations for clearing native vegetation)  • is being assessed by a relevant authority which would lead to an exemption under Schedule 6 of the EP Act, or  • has been referred under s.51DA of the EP Act and a determination made that a clearing permit is not required (refer to the Guideline: Native vegetation clearing referrals),  the clearing will not be reassessed by DWER or be subject to any additional controls by DWER.  If the proposed clearing action is to be assessed in accordance with, or under, an Environment Protectron and Biodiversity Conservation Act (Cth) (EPBC Act) accredited process, such as the assessment bilateral agreement must be completed and attached to your clearing permit application.	Yes − clearing application reference (if known):          CPS [10989/1]      Yes − a valid EP Act clearing permit already applies:          CPS [

Part 6	6: Other DWER approvals			
6.4	Have you applied or do you intend to apply for a Country Area Water Supply Act 1947 licence?  If a clearing exemption applies in a Country Area Water Supply Act 1947 (CAWS Act) controlled catchment, or if compensation has previously been paid to retain the subject vegetation, a CAWS Act clearing licence is required.  If yes, contact the relevant DWER regional office for a Form 1 Application for licence.  Map of CAWS Act controlled catchments	☐ Yes – application reference (if knowld) ☐ No – a valid licence applies: [ ☑ No – licence not required	n): [	1
Water	r licences and permits (Rights in Water and Irrig	ation Act 1914)

	Emissions, discharges, and waste						
-	NSTRUCTIONS:     Please see Guideline: Risk Assessments and provide all information relating to emission sources.						

INS	TRUCTIONS:		
•	Please see <u>Guideline</u> : <u>Risk Assessments</u> and provide all information relating to emission pathways and receptors relevant to the application.	sources,	
•	You must provide details on sources of emissions (for example, kiln stack, baghouses or pipelines) including fugitive emissions (for example, noise, dust or odour), types of emissions chemical, or biological), and volumes, concentrations and durations of emissions.		
٠	The potential for emissions should be considered for all stages of the proposal (where re including during construction, commissioning and operation of the premises.	levant),	
		No	Yes
9.1	Are there potential emissions or discharges arising from the proposed activities?		$\boxtimes$

If yes, identify all potential emissions and discharges arising from the proposed activities and complete Table 9.1: Emissions and discharges (below).

Part 9:	Emissions, discharges, and waste	
	☐ Gaseous and particulate emissions (e.g. emissions from stacks, chimneys or baghouses)	□ Dust (e.g. from equipment, unsealed roads and/or stockpiles, etc.)
	☐ Wastewater discharges (e.g. treated sewage, wash water, or process water discharged to lands or waters)	☑ Waste and leachate (e.g. emissions through seepage, leaks and spills of waste from storage, process and handling areas, etc.)
	Noise (e.g. from machinery operations and/or vehicle operations)	Odour (e.g. from wastes accepted at putrescible landfills, storage or processing of waste or other odorous materials, etc.)
	Contaminated or potentially contaminated stormwater (e.g. stormwater with the potential to come into contact with chemicals or waste materials, etc.)	☐ Electromagnetic radiation <sup>1</sup>
	Other (please specify): [	1
	Note that for electromagnetic radiation, copies/details of Mines, Industry Regulation and Safety or the Radiological	

Details of any pollution control equipment or waste treatment system, including any control mechanisms used to ensure proper operation of this equipment, must be included in the proposed controls column of the 'Emissions and discharges table' below. Details of management measures employed to control emissions should also be included. Please provide / attach any relevant documents (e.g. management plans, etc.).

Additional rows may be added as required and/or further information may be included as an attachment (see Section 9.3).

Table 9.1: Emissions and discharges

	Source of emission or discharge	Emission or discharge type	Volume and frequency	Proposed controls (include in Attachment 6A if extensive or complex)	Location (on site layout plan – see 3.4)
		Emission to air (dust)	During Operations		
1.	Mobile crushing &	Emissions to air (noise)	During Operations		Figure 4
1.	plant and vehicles	Potential discharge to land and water (wastewater)	During Operations	Refer to Attachment 6A	Attachment 2
2.	Landfill	Emissions to Air (Dust, Noise, Odour) Emissions to Land	During Operations		Figure 5 Attachment 2
3.	Mine pits	Emissions to groundwater (mine dewater)	During Operations		Figure 6 Attachment 2

7.					
8.					
9.					

9.2	Waste-related activities at the premises <sup>2</sup> Answer "yes" or "no" for the following questions and complete Table 9.2 (below).					
	(a)	Is waste accepted at the premises?	$\boxtimes$			
	(b)	Is waste produced on the premises?		$\boxtimes$		
	(c) Is waste processed on the premises?		$\boxtimes$			
	(d)	Is waste stored on the premises?		$\boxtimes$		
	(e)	Is waste buried on the premises?		$\boxtimes$		
	(f)	Is waste recycled on the premises?	$\boxtimes$			
	(g)	Is any of the waste listed in Table 9.2 (below) also considered a 'dangerous good' for the purposes of the Dangerous Goods Safety (Storage and Handling of Non-Explosives) Regulations 2007? <sup>3</sup>	×			
		Specify, if yes:				

Solid waste types must be described with reference to Landfill Waste Classification and Waste Definitions 1996 (as amended from time to time) and the Environmental Protection (Controlled Waste) Regulations 2004 (Controlled Waste Regulations).

Liquid waste types must be described with reference to the Controlled Waste Regulations.

For further guidance on the definition of waste, refer to Fact Sheet: Assessing whether material is waste.

Detail must be provided on storage type (for example, hardstand and containment infrastructure), capacity, likely storage volumes, and containment features (for example, lining and bunding).

Additional rows may be added as required and/or further information may be included as an attachment (see Section 9.4).

Table 9.2 Waste types

	Waste type	Quantity (e.g. tonnes, litres, cubic metres)	Waste activity infrastructure (including specifications)	Monitoring (if applicable)	Location (on site layout plan – see 3.4)
1.	Clean Fill, Inert waste	4,500 tonnes per year	Disposal into trenches	Monthly (see Attachment 3B)	Attachment 2, Figure 5
2.	Inert and Putrescible	6,000 tonnes per year	Disposal into trenches	Fortnightly (see (Attachment 3B)	Attachment 2, Figure 5
3.			1		
4.					
5.					26

Attac	Attachments			Yes
9.3 Attachment 6A: Emissions If required, further information for Section 9.1 has been and discharges (if required) included as an attachment labelled Attachment 6A.				
9.4	Attachment 6B: Waste acceptance (if required)	If required, further information for Section 9.2 has been included as an attachment labelled Attachment 6B.	⋈	

<sup>3</sup> Wastes derived from the storage, handling, and use of dangerous goods may be considered hazardous and may need to be handled with the same precautions. Please refer to the Department of Mines, Industry Regulation and Safety's Dangerous Goods Safety information sheet for more information

Part 10: Siting and location		
10.1	Sensitive land uses  What is/are the distance(s) to the nearest sensitive land use(s)?  A sensitive land use is a residence or other land use which may be affected by an emission or discharge associated with the proposed activities.	The project is a remote site. Hampton Hill Homestead is 53km northwest of the Project. City of Kalgoorlie-Boulder is 75km northwest of the project. Malleefowl habitat within premise boundary (Haul Rd)

### 10.2 Nearby environmentally sensitive receptors and aspects

Identify in Table 10.2 (below):

 all instances of environmentally sensitive receptors that are known or suspected to be present within, or within close proximity to, the proposed prescribed premises boundary;

Refer to Attachment 7

- the nature of the sensitive receptors (e.g. type of Threatened Ecological Community, species or threatened flora or fauna, etc.);
- their actual or approximate known distance and direction from the premises boundary (at the closest point/s); and
- if applicable, what measures have been or will be taken to ensure that sensitive receptors are not
  adversely impacted by any emissions or discharges from the premises.

Refer to the Guideline: Environmental siting for further guidance.

Table 10.2: Nearby environmentally sensitive receptors and aspects

Type / classification	Description	Distance + direction to premises boundary	Proposed controls to prevent or mitigate adverse impacts (if applicable)
Environmentally Sensitive Areas <sup>1</sup>	N/A	N/A	N/A
Threatened Ecological Communities	N/A	N/A	N/A
Threatened and/or priority fauna	Malleefowl habitat	Within premise boundary (along the haul road only)	See Attachment 7
Threatened and/or priority flora	N/A	N/A	N/A
Aboriginal and other heritage sites <sup>2</sup>	No heritage sites within premise boundary. Heritage site identified near premise during heritage surveys (not a Registered Site).	200 m	See Attachment 7
Public drinking water source areas <sup>3</sup>	N/A	N/A	N/A
Rivers, lakes, oceans, and other bodies of surface water, etc.	There are no permanent water bodies or wetlands within the PPA with all drainage lines being ephemeral. The closest nearby permanent water body is Lake Yindarigooda which is located 8 km to the south.	8 km south	See Attachment 7
Acid sulfate soils	N/A	N/A	N/A
Other	N/A	N/A	N/A

	e cost of buildings to be used for purposes unrelated to the ill become, prescribed premises	purposes in respect of which the premises a	are, or
	osts for buildings unrelated to the prescribed premises activ	rity or activities	
- cc	onsultancy fees relating to the works.	10	

### 13.4 Proposed licence fee (new licences and licence renewals)

### Detailed licence fee calculations

### Part 1 Premises component (see r.5D and Part 1 of Schedule 4 of the EP Regulations)

The production or design capacity should be the maximum capacity of the premises. For most categories, the production or design capacity refers to an annual rate. The figure should be based on 24 hour operation for 365 days, unless there is another regulatory approval or technical reason that restricts operation.

The premises component fee applies to the category in Part 1, Schedule 4 incurring the higher or highest amount of fee units in accordance with r.5D(2) of the EP Regulations.

List all categories (insert additional rows as required). Use only the higher or highest amount of fee units to determine the Part 1 fee component.

Category	Production or design capacity	Fee units
Using the higher or high	est amount of fee units, Part 1 component subtota	1 \$

# Part 2 Waste (see r.5D(1a)(b) and Part 2 of Schedule 4 of the EP Regulations)

If your premises includes one or more of the following categories specify any applicable Part 2 waste amounts. Do not include Part 3 waste components of these discharges in the below calculations.

Categories: 5, 6, 7, 8, 9, 12, 14, 44, 46, 53, 54A, 70, 80, or 85B

Part 2 waste means waste consisting of -

- (a) tailings; or
- (b) bittems; or
- (c) water to allow mining of ore; or
- (d) flyash; or
- (e) waste water from a desalination plant.

If the premises does not fall into one of the categories listed above, or there are no applicable Part 2 waste amounts, the sub total for this section will be \$0.

Insert additional rows as required. Sum all Part 2 waste fees to determine the sub total.

Discharge quantity (tonnes/year)	Fee units	
Part 2 component subtotal	\$	

# Part 3 Waste - Discharges to air, onto land, into waters (see Part 3 of Schedule 4 of the EP Regulations)

Choose the appropriate location of the discharge and enter the discharge amount(s) in the units specified in the EP Regulations. This should be the amount of waste expected to be discharged over the next 12 months, expressed in the units and averaging period applicable for that waste kind (for example, g/minute or kg/day). Amounts can be measured, calculated, or estimated and can be based on data acquired over the previous 12 months, but should be based on the maximum premises capacity and not the forecast operating hours.

Where there are discharges, all prescribed waste types must be considered in the fee calculation. If a specified waste type is not present in the discharge, this must be justified using an appropriate emission estimation technique (for example, sampling data, industry sector guidance notes, National Pollution Inventory guides and emission factors).

DANKE ON THE PROPERTY OF	Discharge rate		Discharge of
Discharges to air	Discharge rate (g/min)	Discharges to air	Discharge rate (g/min)
Carbon monoxide		Nickel

# Part 14: Commercially sensitive or confidential information

#### NOTE:

Information submitted as part of this application will be made publicly available. If you wish to submit commercially sensitive or confidential information, please identify the information in Attachment 11, and include a written statement of reasons why you request each item of information be kept confidential.

Information submitted later in the application process may also be made publicly available at DWER's discretion. For any commercially sensitive or confidential information, please follow the same process as described above.

DWER will take reasonable steps to protect genuinely confidential or commercially sensitive information. However, please note that DWER cannot commit to redacting all personal information from all supporting documents. You are advised to ensure that all personal information, including signatures, are removed from supporting documents prior to submitting them to the department. Please note that all submitted information may be the subject of an application for release under the *Freedom of Information Act 1992*.

All information which you would propose to be exempt from public disclosure has been	Attached	N/A
separately placed in a redacted version of the application form and its supporting documentation. Note that this is in addition to the unredacted version(s) provided to DWER for its assessment. Grounds for claiming exemption in accordance with Schedule 1 to the Freedom of Information Act 1992 must be specified in Attachment 11 (located at the end of this form).		

Part 15: Submission of application	
INSTRUCTIONS:  Check one of the boxes below to nominate how you will submit your application.  Files larger than 50MB cannot be received via email by DWER. Files larger than 50MB can be sent via Files Transfer. Alternatively, email DWER to make other arrangements.	ile
A full, signed, electronic copy of the application form including all attachments has been submitted via email to <a href="mailto:info@dwer.wa.gov.au">info@dwer.wa.gov.au</a> ; OR	×
A signed, electronic copy of the application form has been submitted via email to <a href="mailto:info@dwer.wa.gov.au">info@dwer.wa.gov.au</a> and attachments have been submitted via File Transfer, or electronically by other means as arranged with DWER; OR

### Part 16: Declaration and signature

#### General

1 / We confirm and acknowledge that:

- the information contained in this application is true and correct;
- I / we have legal authority to sign on behalf of the applicant (where authorisation provided);
- I / we have not altered the requirements and instructions set out in this application form;
- I / we have provided a valid email address in Section 2.3 for receipt of correspondence electronically via email
  from DWER in relation to this application;
- that successful delivery to my / our server constitutes receipt of correspondence sent electronically via email from DWER in relation to this application; and
- I / we have provided a valid postal and/or business address in Section 2.4 for the service of all Part V
  documents.
- giving or causing to be given information that to my knowledge is false or misleading is an offence under s.112 of the EP Act and may incur a penalty of up to \$100,000.

#### **Publication**

I / We confirm and acknowledge:

- this application (including all attachments apart from the sections identified in Attachment 11) is a public document and may be published;
- marine surveys provided in accordance with Part 5 will be published and used, for the purposes of the IMSA project, in accordance with your declaration made in the Metadata and Licensing Statement;
- all necessary consents for the publication of information have been obtained from third parties;
- Information considered exempt from public disclosure has been noted by redaction of a separately provided copy of the completed application form and its supporting documentation (in accordance with Part 14), with reasons as to why the information should be exempt in accordance with the grounds specified in Schedule 1 to the Freedom of Information Act 1992 (WA) being provided in Attachment 11;
- subsequent information provided in relation to this application will be a public document and may be published
  unless written notice has been given to DWER by the applicant, at the time the information is provided, claiming
  that the information is considered exempt from public disclosure; and
- the decision to not publish information will be at the discretion of the CEO of DWER and will be made consistently with the provisions of the Freedom of Information Act 1992 (WA).
