

This needs to be signed by an authorised person

3

**INSTRUCTIONS:**

- Completion of this form is a statutory requirement under s.54(1)(a) of the *Environmental Protection Act 1986 (WA) (EP Act)* for works approval applications; s.57(1)(a) for licence and licence renewal applications; s.59B(1)(a) for applications for an amendment; and under r.5B(2)(a) of the *Environmental Protection Regulations 1987 (WA) (EP Regulations)* for applications for registration of premises.
- The instructions set out in this application form are general in nature.
- A reference to 'you' in these instructions is a reference to the applicant.
- The information provided to you by the Department of Water and Environmental Regulation (DWER) in relation to making applications does not constitute legal advice. DWER recommends that you obtain independent legal advice.
- Applicants seeking further information relating to requirements under the EP Act and/or EP Regulations are directed to the Parliamentary Counsel's Office website ([www.legislation.wa.gov.au](http://www.legislation.wa.gov.au)). Schedule 1 of the EP Regulations contains the categories of prescribed premises.
- For prescribed premises where activities fall within more than one category, ALL applicable categories must be identified. This applies for existing prescribed premises seeking renewal or amendment, as well as new prescribed premises.
- The application form must be completed with all relevant information attached. Attachments can be combined and submitted as one or more consolidated documents if desired, provided it is clear which section of the application form the information / attachments relate to. Where attachments are submitted separately, avoid duplicating information. Ensure that any cross-references between the application form and the supporting document(s) are accurate.
- If an application form has been submitted which is incomplete or materially incorrect, the Chief Executive Officer of DWER (CEO) will decline to deal with the application and advise the applicant accordingly.
- On completing this application form, please submit it to DWER in line with the instructions in Part 15 of the form.

**Completion Matrix**

The matrix below explains what sections are required to be completed for different types of applications.

| Application form section  | New application / registration | Renewal      | Amendment    |
|---|--------------------------------|--------------|--------------|
| Part 1: Application type  | •                              | •            | •            |
| Part 2: Applicant details   | •                              | •            | •            |
| Part 3: Premises details  | •                              | •            | △            |
| Part 4: Proposed activities   | •                              | •            | •            |
| Part 5: Index of Biodiversity Surveys for Assessment and Index of Marine Surveys for Assessment | If required.                   | If required. | If required. |
| Part 6: Other DWER approvals  | •                              | •            | •            |
| Part 7: Other approvals and consultation  | •                              | •            | •            |
| Part 8: Applicant history   | •                              | •            | △            |
| Part 9: Emissions, discharges, and waste  | •                              | •            | △            |
| Part 10: Siting and location  | •                              | •            | △            |
| Part 11: Submission of any other relevant information   | •                              | •            | If required. |
| Part 12: Category checklist(s)  | •                              | •            | •            |
| Part 13: Proposed fee calculation   | •                              | •            | •            |
| Part 14: Commercially sensitive or confidential information                                     | •                              | •            | •            |
| Part 15: Submission of application  | •                              | •            | •            |
| Part 16: Declaration and signature  | •                              | •            | •            |
| Attachment 1A: Proof of occupier status   | •                              | •            | N/A          |
| Attachment 1B: ASIC company extract   | •                              | •            | N/A          |
| Attachment 1C: Authorisation to act as a representative of the occupier                         | •                              | •            | •            |
| Attachment 2: Premises map/s  | •                              | •            | △            |
| Attachment 3A: Environmental commissioning plan   | If required.                   | N/A          | If required  |
| Attachment 3B: Proposed activities  | •                              | •            | △            |
| Attachment 3C: Map of area proposed to be cleared (only applicable if clearing is proposed)     | •                              | •            | •            |
| Attachment 3D: Additional information for clearing assessment                                   | If required.                   | If required. | If required. |
| Attachment 4: Marine surveys (only applicable if marine surveys included in application)        | •                              | •            | •            |
| Attachment 5: Other approvals and consultation documentation                                    | •                              | •            | △            |
| Attachment 6A: Emissions and discharges   | If required.                   | If required. | If required. |
| Attachment 6B: Waste acceptance   | If required.                   | If required. | If required. |
| Attachment 7: Siting and location   | •                              | •            | △            |
| Attachment 8: Additional information submitted  | If required.                   | If required. | If required. |
| Attachment 9: Category-specific checklist(s)  | •                              | If required. | If required. |
| Attachment 10: Proposed fee calculation   | •                              | •            | •            |
| Attachment 11: Request for exemption from publication   | If required.                   | If required. | If required. |

**Key:**

- Must be completed / submitted.
- △ To the extent changed / required in relation to the amendment.
- N/A Not required with application, but may be requested subsequently depending on DWER records.
- "If required" Sections for applicants to determine.

| Part 2: Applicant details   |   |  |  |                                |
|---|---|--|--|--------------------------------|
| <b>INSTRUCTIONS:</b>  |   |  |  |                                |
| <ul style="list-style-type: none"> <li>• The applicant (the occupier of the premises) must be an individual(s), a company, body corporate, or public authority, but not a partnership, trust, or joint-venture name. Applications made by or on behalf of business names or unincorporated associations will not be accepted.</li> <li>• If applying as an individual, your full legal name must be provided.</li> <li>• If applying as a company, body corporate, or public authority, the full legal entity name must be inserted.</li> <li>• Australian Company Number's (ACN) must be provided for all companies or body corporates.</li> <li>• DWER prefers to send all correspondence electronically via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act (Part V documents) electronically via email, by indicating your consent in Section 2.3.</li> <li>• Companies or body corporates making an application must nominate an authorised representative from within their organisation. Proof of authorisation must be submitted with the application (see Section 2.10). If you are applying as an individual, you are the representative.</li> <li>• Details of a contact person must be provided for DWER enquiries in relation to your application. This contact person can be a consultant if authorised to represent the applicant. Written evidence of this authorisation must be provided.</li> <li>• Details of the occupier of the premises must be provided. One of the options must be selected and if you have been asked to specify, please provide details. For example, if 'lease holder' has been selected, please specify the type of lease (for example, pastoral lease, mining lease, or general lease) and provide a copy of the lease document(s). Note that contracts for sale of land will not be sufficient evidence of occupancy status.</li> </ul> |   |  |  |                                |

| 3.4                      | <b>Attachment 2: Premises map(s)</b>  | You must provide as an attachment to this application form, labelled Attachment 2, either: <ol style="list-style-type: none"> <li>an aerial photograph, map, and site plan of sufficient scale showing the proposed prescribed premises boundary</li> <li>or</li> <li>where available, a map of the proposed premises boundary and site plan as an ESRI shapefile (accepted file types include .dbf, .shp, .prj, and .shx) with the following properties (provided on a suitable portable digital storage device, if submitting application in hard copy form):                             <ul style="list-style-type: none"> <li>Geometry type: Polygon Shape</li> <li>Coordinate system: GDA 2020 (Geographic latitude / longitude)</li> <li>Datum: GDA 2020 (Geocentric Datum of Australia 2020).</li> </ul> </li> </ol> You must also provide a map or maps of the prescribed premises, clearly identifying and labelling: <ul style="list-style-type: none"> <li>layout of key infrastructure and buildings, clearly labelled;</li> <li>the premises boundary (where the premises boundary does not align with the entirety of the cadastral boundary, identify the Lot Number for which the premises is part of);</li> </ul> |               |                | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

| Part 3: Premises details |   |  |
|--------------------------|---|--|
|                          | <ul style="list-style-type: none"> <li>• emission and discharge points (with precise GPS coordinates where available);</li> <li>• monitoring points (with precise GPS coordinates where available);</li> <li>• sensitive receptors and land uses</li> <li>• all areas proposed to be cleared (if applicable).</li> </ul> <p>Maps must contain a north arrow, clearly marking the area in which the activities are carried out. The map or maps must be of reasonable clarity and have a visible scale.</p> <p>Refer to Figures 1, 2, 3 in Appendix B of the Environmental Assessment and Management Plan (EAMP) provided as part of this application.</p> |  |

**Part 4: Proposed activities**

**INSTRUCTIONS:**

- You must provide a description and the scope, size and scale of all prescribed activities of Schedule 1 to the EP Regulations including the maximum production or design capacity of each prescribed activity.
- If applying for a works approval or licence amendment involving the construction of new infrastructure, you must provide information on infrastructure to be constructed and how long construction is expected to take. You must confirm if commissioning is to occur and how long it will take.
- If applying for a works approval or licence amendment *not* involving the construction of new infrastructure, provide details of the proposed amendment.
- You must identify all emission sources on the premises map/s.
- You must also provide information on activities which directly relate to the prescribed premises category which have, or are likely to result in, an emission or discharge.
- If clearing activities are proposed provide a description and details. If a relevant exemption under Schedule 6 of the EP Act or r.5 of the Environmental Protection (Clearing of Native Vegetation) Regulations 2004 (WA) (Clearing Regulations) may apply, provide details.
- Note that in some cases, DWER may require that the clearing components of a works approval or licence (or amendment) application be submitted separately through the clearing permit application process. Refer to the [Procedure: Prescribed premises works approvals and licences](#) for further guidance.
- Please note that the requested information is critical to DWER's understanding of the proposed activities. The more accurate, specific, and complete the information provided in the application, the less uncertainty that DWER may identify in the application, therefore facilitating completion of the assessment in a more efficient and timely manner.

**4.1 Prescribed premises infrastructure and equipment**

In Table 4.1 (below), provide a list of all items of infrastructure and equipment within the boundary of the prescribed premises relevant to this application, and include the following details for each:

- **relevant categories (if known)** – the categories of prescribed premises (as listed under Schedule 1 of the EP Regulations) that relate to that infrastructure or equipment;
- **site plan reference** – the location of that infrastructure or equipment (with reference to the site plan map or maps provided above in Section 3.4 and labelled as Attachment 2 – e.g. use GPS coordinates or a clear description such as "labelled as [label on premises map] on Map A");
- **is it critical containment infrastructure (CCI)?** – indicate if the identified infrastructure or equipment would be categorised as CCI. Refer to the [Guideline: Industry Regulation Guide to Licensing](#) for further information on CCI; and
- **is environmental commissioning required?** – indicate if environmental commissioning is intended to be undertaken for that item of infrastructure or equipment. Refer to the [Guideline: Industry Regulation Guide to Licensing](#) for further information on environmental commissioning.

Add additional rows to Table 4.1 (below) as required.

**Table 4.1: Infrastructure and equipment**

| Part 3: Premises details |                              |                                |   |                                     |  |

| 4.                       |                              |                                |   |                                     |  |
| 5.                       |                              |                                |   |                                     |  |
| 6.                       |                              |                                |   |                                     |  |
| 7.                       |                              |                                |   |                                     |  |

**4.2 Detailed description of proposed activities or proposed changes (if an amendment):**  
 You must provide details of proposed activities relevant to this application within the boundary of the prescribed premises, identifying:

- scope, size, and scale of the project, including details as to production or design capacity (and/or frequency, if applicable);
- key infrastructure and equipment;
- description of processes or operations (a process flow chart may be included as an attachment);
- emission / discharge points;
- locations of waste storage or disposal
- activities occurring during construction, environmental commissioning, and operation (if applicable).

If assessment and imposition of conditions to allow environmental commissioning to be undertaken are requested, please provide an environmental commissioning plan as Attachment 3A (see 4.11 below).  
 Additional information relating to the proposed activities may be included in Attachment 3B (see 4.12 below).

**Construction activities (if applicable):**

**Part 3: Premises details**

The City of Wanneroo (the City) is progressing the development of its long-term waste management strategy through the establishment of the Neerabup Resource Recovery Precinct (NRRP) on Lot 600, 570 Wattle Avenue, Neerabup (the Site). Talis Consultants (Talis) previously assisted the City in preparing the NRRP Master Plan, which outlines the staged delivery of key waste infrastructure to address capacity shortfalls in Perth's northern suburbs. The City has engaged Talis to prepare an Environmental Assessment and Management Plan (EAMP) to support a Works Approval application for the following infrastructure (the Proposed Infrastructure):

- CRC:
  - Kiosk, Reuse Shop and Education Centre;
  - Recycling Drop-off Area;
  - Household Hazardous Waste Drop-off;
  - Mixed Waste Multi-Tiered Drop-off Facility; and
  - Long term stockpiling Area.
- WTS;
- MRF;
  - Receival and Processing Building;
  - Storage and Dispatch Building; and
  - Administration building.
- Supporting infrastructure:
  - Shared weighbridge;
  - Access roads and services areas;
  - Administration Centre and Workshop; and
  - Security (CCTV, fencing, etc); and
  - Surface Water Management System (SWMS):
    - A network of open channel drains and culverts; and
    - A surface water pond system.

Together, the Proposed Infrastructure will reduce haulage distances, improve diversion rates and support the City's transition away from reliance on Tamala Park landfill, which is expected to reach capacity in the coming years. Future stages will incorporate an Energy Recovery Facility (ERF) and the private development of additional resource recovery and waste processing facilities in the northern proportion of NRRP. However, it is important to note that the City is just seeking approval for the Stage 1 Proposed Infrastructure only that this stage which will represent a critical step in achieving the objectives of the NRRP Master Plan and addressing the resource recovery and waste management needs of the City and surrounding northern suburbs.

**For more details, please refer to the EAMP that has been provided to support this application.**

**Environmental commissioning activities (if applicable):**

Refer to the [Guideline: Industry Regulation Guide to Licensing](#) for further guidance.

N/A

**Time limited operations activities (if applicable):**

Different elements of the premises may require time limited operations to commence at different times. In these circumstances, please specify the infrastructure and/or equipment for which time limited operations authorisation is being applied for.

If time limited operations are expected to differ from future licensed operations, specify how and why this would be the case.

Refer to the [Guideline: Industry Regulation Guide to Licensing](#) for further guidance.

The City requests that the DWER grant approval for time limited operations for the NRRP Stage 1 until such time an amended licence is granted. It is understood that the maximum period for time limited operations is 180 days and therefore the City wishes to seek this timeframe to mitigate any potential risks associated with delays during the assessment stage for the amended Licence application. As it is the City's aim to establish the new WTS as soon as possible, the time limited operations period will ensure the Site is operational as soon as it is constructed, in accordance with the Works Approval conditions and detailed designs.

**Operations activities (for a licence):**

| Part 3: Premises details   |   |  |                                     |
|--|---|--|-------------------------------------|
| <p>The operations activities of the Proposed Infrastructure include:</p> <ul style="list-style-type: none"> <li>• CRC: to provide residents with a safe and accessible location to drop off household items for reuse, recycling or appropriate disposal;</li> <li>• Materials recovery facility (MRF): to accept and process co-mingled recyclables from kerbside collections for downstream reprocessing;</li> <li>• Community Recycling Centre (CRC): to provide residents with a safe and accessible location to drop off household items for reuse, recycling or appropriate disposal;</li> <li>• Supporting infrastructure:                             <ul style="list-style-type: none"> <li>○ Shared weighbridge;</li> <li>○ Access roads and services areas;</li> <li>○ Administration Centre and Workshop;</li> <li>○ Security (Closed Circuit Television [CCTV], fencing, etc);</li> <li>○ Surface Water Management System (SWMS):                                     <ul style="list-style-type: none"> <li>– A network of open channel drains and culverts; and</li> <li>– A surface water pond system.</li> </ul> </li> </ul> </li> </ul> <p>The proposed conceptual layout of the CRC, MRF and WTS within the Site is shown in Drawing C-500 (Appendix B of the EAMP), and a discussion on its proposed operations is provided under Section 5 and 6 of the EAMP.</p> |   |  |                                     |

|---|---|---|---|-------------------------------------|
| 4.11  | <b>Attachment 3A:<br/>Environmental<br/>commissioning plan</b>                            | <p>If applying to construct works or install equipment, and environmental commissioning of the works or equipment is planned, an environmental commissioning plan has been included in Attachment 3A.</p> <p>The environmental commissioning plan is expected to include, at minimum, identification of:</p> <ul style="list-style-type: none"> <li>the sequence of commissioning activities to be undertaken, including details on whether they will be done in stages;</li> <li>a summary of the timeframes associated with the identified sequence of commissioning activities;</li> <li>the inputs and outputs that will be used in the commissioning process;</li> <li>the emissions and/or discharges expected to occur during commissioning;</li> <li>the emissions and/or discharges that will be monitored and/or confirmed to establish or test a steady-state operation (e.g. identifying emissions surrogates, etc.), including a detailed emissions monitoring program for the measurement of those emissions and/or discharges;</li> <li>the controls (including management actions) that will be put in place to address the expected emissions and/or discharges;</li> <li>any contingency plans for if emissions exceedances or unplanned emissions and/or discharges occur</li> <li>how any of the above would differ from standard operations once commissioning is complete.</li> </ul> <p>Note that DWER will not include conditions on a granted instrument that authorise environmental commissioning activities where it is not satisfied that the risks associated with environmental commissioning can be adequately addressed.</p> | <input checked="" type="checkbox"/>                             | <input type="checkbox"/>            |
| 4.12  | <b>Attachment 3B:<br/>Proposed activities</b>   | <p>Additional information relating to the proposed activities has been included in Attachment 3B (if required).</p> <p>Please refer to the EAMP provided as part of the application package.</p>  | <input type="checkbox"/>  | <input checked="" type="checkbox"/> |
| <b>Clearing activities</b>  |   |   |   |                                     |
| 4.13 to 4.19 are only required if the application includes clearing of native vegetation. |   |   |   |                                     |
| 4.13  | <b>Proposed clearing area (hectares and/or number of individual trees to be removed):</b> | Refer to <a href="#">Vegetation Assessment Memo</a> provided in Appendix A of the EAMP.   | Approximately 8.92 hectares (ha) of degraded native vegetation. |                                     |
| 4.14  | <b>Details of any relevant exemptions:</b>  | Refer to DWER's <a href="#">A guide to the exemptions and regulations for clearing native vegetation</a> .  | N/A   |                                     |
| 4.15  | <b>Proposed method of clearing:</b>   |   | Removal of vegetation by dozer or other earthmoving equipment.  |                                     |
| 4.16  | <b>Period within which clearing is proposed to be undertaken:</b>                         | For example, May 2020 – June 2020.  | To be confirmed   |                                     |
| 4.17  | <b>Purpose of clearing:</b>   | <p>To enable site preparation and construction, the City has applied for a Native Vegetation Clearing Permit (NVCP) to authorise the clearing of up to 8.92ha of degraded native vegetation. The clearing footprint has been refined to avoid encroachment into the adjacent wetland conservation area and to retain known habitat features, as outlined in Sections 3.7 and 8.1 of this EAMP. Notably, two Black Cockatoo habitat trees identified within the site will be retained. The environmental risks associated with the proposed clearing are considered low, given the degraded condition of the vegetation and its limited habitat value. Further details are provided in Section 8.1 of the EAMP. This assessment is supported by the findings of the Basic Fauna and Targeted Black Cockatoo Habitat Assessment undertaken by Western Environmental Pty Ltd in August 2024, included in Appendix A.</p>   |   |                                     |

| Part 3: Premises details |  |  |                          |                                     |

| 8.5   | If the applicant is a corporation, has any director of that corporation ever been convicted, or paid a penalty, for an offence under a provision of the EP Act, its subsidiary legislation, or similar environmental protection or health-related legislation in Western Australia or elsewhere in Australia?   | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| 8.6   | If the applicant is a corporation, has any person concerned in the management of the corporation, as referred to in s.118 of the EP Act, ever been convicted of, or paid a penalty, for an offence under a provision of the EP Act, its subsidiary legislation, or similar environmental protection or health-related legislation in Western Australia or elsewhere in Australia? | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| 8.7   | If the applicant is a corporation, has any director of that corporation ever been a director of another corporation that has been convicted, or paid a penalty, for an offence under a provision of the EP Act, its subsidiary legislation, or similar environmental protection or health-related legislation in Western Australia or elsewhere in Australia?                     | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |

**Part 9: Emissions, discharges, and waste**

Details of any pollution control equipment or waste treatment system, including any control mechanisms used to ensure proper operation of this equipment, must be included in the proposed controls column of the 'Emissions and discharges table' below. Details of management measures employed to control emissions should also be included. Please provide / attach any relevant documents (e.g. management plans, etc.).

Additional rows may be added as required and/or further information may be included as an attachment (see Section 9.3).

**Table 9.1: Emissions and discharges**

|    | Source of emission or discharge  | Emission or discharge type | Volume and frequency              | Proposed controls (include in Attachment 6A if extensive or complex) | Location (on site layout plan – see 3.4) |
|----|--|----------------------------|-----------------------------------|--|--|
| 1. | WTS Facility & Greenwaste Bunker   | Odour                      | Daily                             | See Section 8.2.1 of EAMP  | See Drawing C-500 in Appendix B of EAMP  |
| 2. | Vehicle movements and material handling  | Noise                      | During construction and operation | See Section 8.2.2 of EAMP  |  |
| 3. | Construction works and material handling   | Dust                       | Daily                             | See Section 8.2.3 of EAMP  |  |
| 4. | Stormwater events  | Stormwater                 | N/A                               | See Section 8.3 of EAMP  |  |
| 5. | WTS Facility   | Leachate                   | Daily                             | See Section 8.3 of EAMP  |  |
| 6. | For further details on all relevant environmental aspects and proposed management measures refer to Section 8 and 9 of the EAMP provided as part of the application package. |                            |                                   |  |  |

| 9.2 Waste-related activities at the premises <sup>2</sup>                        |   | No  | Yes                                 |
|--|---|---|-------------------------------------|
| Answer "yes" or "no" for the following questions and complete Table 9.2 (below). |   |   |                                     |
| (a)  | Is waste accepted at the premises?  | <input type="checkbox"/>  | <input checked="" type="checkbox"/> |
| (b)  | Is waste produced on the premises?  | <input checked="" type="checkbox"/>   | <input type="checkbox"/>            |
| (c)  | Is waste processed on the premises?   | <input type="checkbox"/>  | <input checked="" type="checkbox"/> |
| (d)  | Is waste stored on the premises?  | <input type="checkbox"/>  | <input checked="" type="checkbox"/> |
| (e)  | Is waste buried on the premises?  | <input checked="" type="checkbox"/>   | <input type="checkbox"/>            |
| (f)  | Is waste recycled on the premises?  | <input type="checkbox"/>  | <input checked="" type="checkbox"/> |
| (g)  | Is any of the waste listed in Table 9.2 (below) also considered a 'dangerous good' for the purposes of the Dangerous Goods Safety (Storage and Handling of Non-Explosives) Regulations 2007? <sup>3</sup> | <input type="checkbox"/>  | <input checked="" type="checkbox"/> |
|  | Specify, if yes:  | Hazardous waste (including household hazardous waste) may include dangerous goods such as aerosols, paints and batteries. |                                     |

<sup>2</sup> Copies / details of any other relevant approvals (e.g. from the Department of Health) must be provided where applicable.

<sup>3</sup> Wastes derived from the storage, handling, and use of dangerous goods may be considered hazardous and may need to be handled with the same precautions. Please refer to the Department of Mines, Industry Regulation and Safety's [Dangerous Goods Safety information sheet](#) for more information.

Solid waste types must be described with reference to *Landfill Waste Classification and Waste Definitions 1996* (as amended from time to time) and the Environmental Protection (Controlled Waste) Regulations 2004 (Controlled Waste Regulations).

Liquid waste types must be described with reference to the Controlled Waste Regulations.

For further guidance on the definition of waste, refer to [Fact Sheet: Assessing whether material is waste](#).

**Part 9: Emissions, discharges, and waste**

Detail must be provided on storage type (for example, hardstand and containment infrastructure), capacity, likely storage volumes, and containment features (for example, lining and bunding).

Additional rows may be added as required and/or further information may be included as an attachment (see Section 9.4).

**Table 9.2 Waste types**

|    | Waste type  | Quantity (e.g. tonnes, litres, cubic metres)   | Waste activity infrastructure (including specifications) | Monitoring (if applicable) | Location (on site layout plan – see 3.4) |

| 9.3         | <b>Attachment 6A: Emissions and discharges</b> (if required) | If required, further information for Section 9.1 has been included as an attachment labelled Attachment 6A. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 9.4         | <b>Attachment 6B: Waste acceptance</b> (if required)         | If required, further information for Section 9.2 has been included as an attachment labelled Attachment 6B. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

**Part 10: Siting and location**

|      |   |  |
|------|---|--|
| 10.1 | <p><b>Sensitive land uses</b></p> <p>What is/are the distance(s) to the nearest sensitive land use(s)? A sensitive land use is a residence or other land use which may be affected by an emission or discharge associated with the proposed activities.</p>   | The nearest sensitive receptor is a single residence approximately 960m north of the Site. |
| 10.2 | <p><b>Nearby environmentally sensitive receptors and aspects</b></p> <p>Identify in Table 10.2 (below):</p> <ul style="list-style-type: none"> <li>all instances of environmentally sensitive receptors that are known or suspected to be present within, or within close proximity to, the proposed prescribed premises boundary;</li> <li>the nature of the sensitive receptors (e.g. type of Threatened Ecological Community, species or threatened flora or fauna, etc.);</li> <li>their actual or approximate known distance and direction from the premises boundary (at the closest point/s); and</li> </ul> |  |

Part 10: Siting and location

- If applicable, what measures have been or will be taken to ensure that sensitive receptors are not adversely impacted by any emissions or discharges from the premises.

Refer to the [Guideline: Environmental siting](#) for further guidance.

**Table 10.2: Nearby environmentally sensitive receptors and aspects**

| Type / classification  | Description   | Distance + direction to premises boundary   | Proposed controls to prevent or mitigate adverse impacts (if applicable)   |
|--|---|---|--|
| Environmentally Sensitive Areas <sup>1</sup>                   | An Environmentally Sensitive Area (ESA) partially intersects the eastern site boundary.   |   | The Stage 1 development boundary has been defined to avoid any encroachment into this ESA. Refer to Section 3.6.2 and 8.1 and 8.2 of the EAMP.                       |
| Threatened Ecological Communities (TECs)                       | The DBCA database search within Lot 600 revealed TECs within approximately half of the Stage 1 development area.  | The closest mapped TECs have been recorded in an area 180m north from the Site boundary.  | Refer to Section 8.1 of the EAMP.  |
| Threatened and/or priority fauna                               | Recorded Threatened species: <ul style="list-style-type: none"> <li>• One threatened fauna species within Lot 600 north of stage 1 development area</li> <li>• multiple threatened species recorded north, west and south of the Site.</li> <li>• One priority species southwest of the Site</li> </ul> | Closest Threatened Fauna 167m outside the Site<br>Closest Priority fauna recorded 639 m southeast of the Site.<br>Refer to Section of the EAMP. |  |
| Threatened and/or priority flora                               | The nearest threatened species was recorded 2.59 km northwest, while the nearest priority species, classified as priority 2, was recorded 2.34 km east of the Site.   |   |  |
| Aboriginal and other heritage sites <sup>2</sup>               | A search within the Local Heritage Survey found the heritage site Albert Thomas House approximately 2km east of Lot 600.  |   |  |
| Public drinking water source areas <sup>3</sup>                | The Public Drinking Water Source Area Gnangara Underground Water Pollution Control is located 250m north of the site boundaries.  |   | Refer to Section 8.3 of the EAMP   |
| Rivers, lakes, oceans, and other bodies of surface water, etc. | A non-perennial stream connected to Lake Pinjar extending 250 meters from the Site alongside the eastern Site boundary.   |   |  |
| Acid sulfate soils   | The closest ASS risk area is mapped alongside the eastern Site boundary intersecting with the northeastern boundary of Lot 600 and mapped as 'high to moderate risk'.   |   | Any ASS encountered will be managed in accordance with the DWER's guidelines on 'Treatment and management of soil and water in acid sulfate landscapes' (June 2015). |

<sup>1</sup> Environmentally Sensitive Areas are as declared under the *Environmental Protection (Environmentally Sensitive) Notice 2005*. Refer to DWER's website ([Environmentally Sensitive Areas](#)) for further information.

<sup>2</sup> Refer to the [Department of Planning, Lands and Heritage website](#) for further information about Aboriginal heritage and other heritage sites.

<sup>3</sup> Refer to [Water Quality Protection Value No. 24 - and use compatibility tables for public drinking water source areas](#) for further information.

| 12.1   | <b>Attachment 9: Category checklist(s)</b> | DWER has developed category checklists to assist applicants with preparing their application.<br>These checklists are available on <a href="#">DWER's website</a> .<br>The relevant category-specific checklist(s) must be completed and included with the application, labelled as Attachment 9. If attaching multiple category checklists, label them 9A, 9B, etc.<br>Do not select "N/A" unless: <ul style="list-style-type: none"> <li>a relevant category checklist is not yet published on DWER's website, or</li> <li>the application is for an amendment that does not propose changes to the method of operation, or change the inputs, outputs, infrastructure, equipment, emissions, or discharges of / from the premises.</li> </ul> Note that that a category checklist(s) may still be required for renewal applications. You will be advised in your renewal notification letter (sent approximately twelve months before the licence expiry date) if you are required to provide the information identified in a category checklist.<br>Where a category checklist is submitted, please specify which checklist(s) in the space below. | <input checked="" type="checkbox"/> <input type="checkbox"/> |
| List title(s) of category checklists attached: |  |  |  |

Part 13: Proposed fee calculation

**INSTRUCTIONS:**

Please calculate the prescribed fee using the relevant online fee calculator linked below.

- Licence: [www.der.wa.gov.au/LicenceFeeCalculator](http://www.der.wa.gov.au/LicenceFeeCalculator)
- Works approval: [www.der.wa.gov.au/WorksApprovalFeeCalculator](http://www.der.wa.gov.au/WorksApprovalFeeCalculator)
- Amendment: <https://www.wa.gov.au/government/publications/works-approval-and-licence-amendment-fee-calculator>

Different fee units apply for different fee components. Fee units may also have different amounts depending on the period in which the calculation is made.

Once DWER has confirmed that the application submitted meets the relevant requirements of the EP Act, you will be issued an invoice with instructions for paying your application fee.

Further information on fees can be found in the [Fact Sheet: Industry Regulation fees](#), and on [DWER's website](#).

|      |  |   |
|------|--|---|
| 13.1 | Only the relevant fee calculations are to be completed as follows:<br><i>[mark the box to indicate sections completed]</i> | <input checked="" type="checkbox"/> Section 13.3 for works approval applications<br><input type="checkbox"/> Section 13.4 for licence / renewal applications<br><input type="checkbox"/> Section 13.5 for registration applications<br><input type="checkbox"/> Section 13.6 for amendment applications<br><input type="checkbox"/> Section 13.7 for applications requiring clearing of native vegetation |

|------|---|-------------------------------------|
| 13.2 | All information and data used for the calculation of proposed fees has been provided in accordance with Section 13.8. | <input checked="" type="checkbox"/> |
|------|---|-------------------------------------|

**13.3 Proposed works approval fee**

Proposed works approval fee (see Schedule 3 of the EP Regulations)

Fees relate to the cost of the works, including all capital costs (inclusive of GST) associated with the construction and establishment of the works proposed under the works approval application. This includes, for example, costs associated with earth works, hard stands, drainage, plant hire, equipment, processing plant, relocation of equipment and labour hire.

Costs exclude:

- the cost of land
- the cost of buildings to be used for purposes unrelated to the purposes in respect of which the premises are, or will become, prescribed premises
- costs for buildings unrelated to the prescribed premises activity or activities
- consultancy fees relating to the works.

| Fee component | Proposed fee |
|---------------|--------------|
|               |              |

|   |                                      |                  |
|---|--------------------------------------|------------------|
| <b>13.4 Proposed licence fee (new licences and licence renewals)</b>  |                                      |                  |
| <b>Detailed licence fee calculations</b>  |                                      |                  |
| <p><b>Part 1 Premises component</b> (see r.5D and Part 1 of Schedule 4 of the EP Regulations)</p> <p>The production or design capacity should be the maximum capacity of the premises. For most categories, the production or design capacity refers to an annual rate. The figure should be based on 24 hour operation for 365 days, unless there is another regulatory approval or technical reason that restricts operation.</p> <p>The premises component fee applies to the category in Part 1, Schedule 4 incurring the higher or highest amount of fee units in accordance with r.5D(2) of the EP Regulations.</p> <p>List all categories (insert additional rows as required). Use only the higher or highest amount of fee units to determine the Part 1 fee component.</p>  |                                      |                  |
| <b>Category</b>   | <b>Production or design capacity</b> | <b>Fee units</b> |
|   |                                      |                  |
|   |                                      |                  |
|   |                                      |                  |
| Using the higher or highest amount of fee units, Part 1 component subtotal  |                                      | \$               |
| <p><b>Part 2 Waste</b> (see r.5D(1a)(b) and Part 2 of Schedule 4 of the EP Regulations)</p> <p>If your premises includes one or more of the following categories specify any applicable Part 2 waste amounts. Do not include Part 3 waste components of these discharges in the below calculations.</p> <p>Categories: 5, 6, 7, 8, 9, 12, 14, 44, 46, 53, 54A, 70, 80, or 85B</p> <p>Part 2 waste means waste consisting of –</p> <ul style="list-style-type: none"> <li>(a) tailings; or</li> <li>(b) bitterns; or</li> <li>(c) water to allow mining of ore; or</li> <li>(d) flyash; or</li> <li>(e) waste water from a desalination plant.</li> </ul> <p>If the premises does not fall into one of the categories listed above, or there are no applicable Part 2 waste amounts, the sub total for this section will be \$0.</p> <p>Insert additional rows as required. Sum all Part 2 waste fees to determine the sub total.</p>  |                                      |                  |
| <b>Discharge quantity (tonnes/year)</b>   | <b>Fee units</b>                     |                  |
|   |                                      |                  |
|   |                                      |                  |
|   |                                      |                  |
| Part 2 component subtotal   |                                      | \$               |
| <p><b>Part 3 Waste – Discharges to air, onto land, into waters</b> (see Part 3 of Schedule 4 of the EP Regulations)</p> <p>Choose the appropriate location of the discharge and enter the discharge amount(s) in the units specified in the EP Regulations. This should be the amount of waste expected to be discharged over the next 12 months, expressed in the units and averaging period applicable for that waste kind (for example, g/minute or kg/day). Amounts can be measured, calculated, or estimated and can be based on data acquired over the previous 12 months, but should be based on the maximum premises capacity and not the forecast operating hours.</p> <p>Where there are discharges, all prescribed waste types must be considered in the fee calculation. If a specified waste type is not present in the discharge, this must be justified using an appropriate emission estimation technique (for example, sampling data, industry sector guidance notes, National Pollution Inventory guides and emission factors).</p> |                                      |                  |

| Discharges to air  |   |                                       |                        |
|--|---|---------------------------------------|------------------------|

| Inorganic fluoride   |   | Benzene                               |                        |
| Pesticides   |   | Carbon oxysulphide                    |                        |
| Aluminium  |   | Carbon disulphide                     |                        |
| Arsenic  |   | Acrylates                             |                        |
| Chromium   |   | Beryllium                             |                        |
| Cobalt   |   | Cadmium                               |                        |
| Copper   |   | Mercury                               |                        |
| Lead   |   | TDI (toluene-2, 4-di-iso-cyanate)     |                        |
| Manganese  |   | MDI (diphenyl-methane di-iso-cyanate) |                        |
| Molybdenum   |   | Other waste                           |                        |
| Part 3 component subtotal  |   | \$                                    |                        |
| Discharges onto land or into waters  |   |                                       | Discharge rate         |
| 1. Liquid waste that can potentially deprive receiving waters of oxygen (for each kilogram discharged per day) — | (a) biochemical oxygen demand (in the absence of chemical oxygen demand limit)  |                                       |                        |
|  | (b) chemical oxygen demand (in the absence of total organic carbon limit)   |                                       |                        |
|  | (c) total organic carbon  |                                       |                        |
| 2. Bio-stimulants (for each kilogram discharged per day) —   | (a) phosphorus  |                                       |                        |
|  | (b) total nitrogen  |                                       |                        |
| 3. Liquid waste that physically alters the characteristics of naturally occurring waters —                       | (a) total suspended solids (for each kilogram discharged per day)   |                                       |                        |
|  | (b) surfactants (for each kilogram discharged per day)  |                                       |                        |
|  | (c) colour alteration (for each platinum cobalt unit of colour above the ambient colour of the waters in each megalitre discharged per day) |                                       |                        |
|  | (d) temperature alteration (for each 1°C above the ambient temperature of the waters in each megalitre discharged per day) —                |                                       |                        |
|  | (i) in the sea south of the Tropic of Capricorn   |                                       |                        |
|  | (ii) in other waters  |                                       |                        |

|   |   |  |
|---|---|--|
| 4. Waste that can potentially accumulate in the environment or living tissue (for each kilogram discharged per day) —   | (a) aluminium                             |  |
|   | (b) arsenic                               |  |
|   | (c) cadmium                               |  |
|   | (d) chromium                              |  |
|   | (e) cobalt                                |  |
|   | (f) copper                                |  |
|   | (g) lead                                  |  |
|   | (h) mercury                               |  |
|   | (i) molybdenum                            |  |
|   | (j) nickel                                |  |
|   | (k) vanadium                              |  |
|   | (l) zinc                                  |  |
|   | (m) pesticides                            |  |

| <b>Summary – Proposed licence fee</b>   |   |  |
| Part 1 Component  |   |  |
| Part 2 Component  |   |  |
| Part 3 Component  |   |  |
| Total proposed licence fees:  |   | \$   |
| <b>13.5 Prescribed fee for registration</b>   |   |  |
| A fee of 24 units applies for an application for registration of premises, unless the occupier of the premises holds a licence in respect of the premises, in accordance with r.5B(2)(c) of the EP Regulations. |   | <input type="checkbox"/> (Tick to acknowledge) |

|  |              |
|--|--------------|
| <b>13.6 Amendment fee (works approval or licence)</b>  |              |
| <p>The fee prescribed for an application for an amendment to a works approval or licence is calculated in accordance with r.5BB(1)(a) of the EP Regulations:</p> <ul style="list-style-type: none"> <li>• for a single category of prescribed premises to which the works approval or licence relates, by using the fee unit number corresponding to the prescribed premises category and relevant design capacity threshold in Schedule 4 Part 1 of the EP Regulations.</li> <li>• for multiple categories of prescribed premises to which the works approval or licence relates, by using the highest fee unit number corresponding to the prescribed premises categories and design capacity threshold in Schedule 4 Part 1 of the EP Regulations.</li> </ul> |              |
| Fee Units  | Proposed fee |

|   |   |
|---|---|
| <b>13.7 Prescribed fee for clearing permit</b>  |   |
| <p>In accordance with the <u>Guideline Indu Regulation</u> and <u>Procedure vegetation clearing permits</u>, where approval to clear native vegetation is sought as part of an application for a works approval or licence, DWER may elect to either jointly or separately determine the clearing component of the application. Where DWER separately determines the clearing component of an application, the application will be deemed to be an application for a clearing permit under s.51E of the EP Act and processed accordingly.</p> <p>Note: If a clearing permit application has been separately submitted and accepted by DWER, a refund for the clearing permit application will not be provided where DWER determines to address clearing requirements as part of a related works approval application.</p> | <input checked="" type="checkbox"/> (Tick to acknowledge) |

|  |                |
|--|----------------|
| <b>13.8 Information and data used to calculate proposed fees</b>   |                |
| <p>The detailed calculations of fee components, including all information and data used for the calculations are to be provided as attachments to this application, labelled as <b>Attachment 10</b>, with an appropriate suffix (for example 10A, 10B etc.). Please specify the relevant attachment number in the space/s provided below.</p> |                |
| Proposed fee for works approval  | Attachment No. |
| Details for cost of works  |                |
| Proposed fee for licence   | Attachment No. |
| Part 1: Premises   |                |
| Part 2: Waste types  |                |
| Part 3: Discharges to air, onto land, into waters  |                |

**Part 14: Commercially sensitive or confidential information**

**NOTE:**  
 Information submitted as part of this application will be made publicly available. If you wish to submit commercially sensitive or confidential information, please identify the information in Attachment 11, and include a written statement of reasons why you request each item of information be kept confidential. Information submitted later in the application process may also be made publicly available at DWER's discretion. For any commercially sensitive or confidential information, please follow the same process as described above.

DWER will take reasonable steps to protect genuinely confidential or commercially sensitive information. However, please note that DWER cannot commit to redacting all personal information from all supporting documents. You are advised to ensure that all personal information, including signatures, are removed from supporting documents prior to submitting them to the department. Please note that all submitted information may be the subject of an application for release under the *Freedom of Information Act 1992*.

|  |                          |                                     |
|--|--------------------------|-------------------------------------|
| All information which you would propose to be exempt from public disclosure has been separately placed in a redacted version of the application form and its supporting documentation. Note that this is in addition to the unredacted version(s) provided to DWER for its assessment. Grounds for claiming exemption in accordance with Schedule 1 to the <i>Freedom of Information Act 1992</i> must be specified in <b>Attachment 11</b> (located at the end of this form). | Attached                 | N/A                                 |

**Part 16. Declaration and signature**

**General**

I / We confirm and acknowledge that:

- the information contained in this application is true and correct;
- I / we have legal authority to sign on behalf of the applicant (where authorisation provided);
- I / we have not altered the requirements and instructions set out in this application form;
- I / we have provided a valid email address in Section 2.3 for receipt of correspondence electronically via email from DWER in relation to this application;
- that successful delivery to my / our server constitutes receipt of correspondence sent electronically via email from DWER in relation to this application; and
- I / we have provided a valid postal and/or business address in Section 2.4 for the service of all Part V documents.
- giving or causing to be given information that to my knowledge is false or misleading is an offence under s.112 of the EP Act and may incur a penalty of up to \$100,000.

**Publication**

I / We confirm and acknowledge:

- this application (including all attachments apart from the sections identified in Attachment 11) is a public document and may be published;
- marine surveys provided in accordance with Part 5 will be published and used, for the purposes of the IMSA project, in accordance with your declaration made in the *Metadata and Licensing Statement*;
- all necessary consents for the publication of information have been obtained from third parties;
- information considered exempt from public disclosure has been noted by redaction of a separately provided copy of the completed application form and its supporting documentation (in accordance with Part 14), with reasons as to why the information should be exempt in accordance with the grounds specified in Schedule 1 to the *Freedom of Information Act 1992 (WA)* being provided in Attachment 11;
- subsequent information provided in relation to this application will be a public document and may be published unless written notice has been given to DWER by the applicant, at the time the information is provided, claiming that the information is considered exempt from public disclosure; and
- the decision to not publish information will be at the discretion of the CEO of DWER and will be made consistently with the provisions of the *Freedom of Information Act 1992 (WA)*.
