1. Decision summary

The Delegated Officer has determined to transfer Licence L8572/2011/1 and undertake amendments to the format of the licence. The amendments are administrative in nature, therefore, they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

2. Scope of assessment

2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Amendment summary

This amendment is limited to a transfer of Licence L8572/2011/1 from Total Waste Management Pty Ltd to Western Resource Recovery Pty Ltd. This transfer was made at the request of Western Resource Recovery Pty Ltd on 1 December 2021.

The assessment of the licence transfer application is limited to a review of ownership details to determine if a Licence transfer may occur. There are no proposed changes to the current approved Premises categories or design capacity.

As part of this Licence transfer package DWER has updated the licence by reviewing and reformatting the Licence conditions and removing those which are no longer valid.

The obligations of the Licence Holder have not changed in the revision of the Licence and the transfer is limited to:

- updating registered company name;
- updating occupier registered company address;
- updating the format and appearance of the licence;
- updating typographical errors; and
- updating/deletions/inclusion of definitions.

3. Consultation

The applicant was provided with the draft Amendment Report on 2 March 2022. A reply email of 4 March 2022 waived the consultation period and provided documents, '*Site Waste Management Plan Karlgoolie Liquid and Hazardous Waste Facility*' and '*Chemical Fixation and Solidification of Control Waste*'.

4. Conclusion

Based on the assessment in this Amendment Report, the Delegated Officer has determined that an amended licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

4.1 Summary of amendments

Table 1 below provides a summary of the amendments and will act as a record of implemented changes. All changes have been incorporated into the Revised Licence as part of the amendment process.

Table 1: Consolidation of licence conditions in this amendment

Existing Licence condition/ table/schedule	Condition summary	Revised Licence condition/ table/schedule	Conversion notes
N/A	Introduction	N/A	Removed
1.1.1, 1.1.3 and 1.1.4	General Interpretation	N/A	Redundant conditions removed. The condition is not considered to be necessary for the purposes of the EP Act relating to the prevention, control, abatement or mitigation of pollution or environmental harm.
1.1.2	General Interpretation	Definitions	Moved to Table 8
1.2.1	General Conditions	1	Direct transfer
1.2.2		2	Direct transfer
1.2.3		N/A	Redundant condition removed
