1. Decision summary

The Delegated Officer has determined to make amendments to Licence L7828/2002/5. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the Existing Licence will remain on the department's website for future reference and will act as a record of the department's decision making.

2. Scope of assessment

2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Amendment summary

This amendment is limited to a transfer of Licence L7828/2002/5 from Aussie Organics Garden Supplies Pty Ltd to Aussie Compost and Carbon Solutions Pty Ltd.

This transfer was made at the request of Aussie Compost and Carbon Solutions Pty Ltd on 24 May 2021. The assessment of the licence transfer application is limited to a review of ownership details to determine if a Licence transfer may occur.

As part of this Licence transfer package DWER has updated the licence by reviewing and reformatting the Licence conditions, and removing those which are no longer valid.

The obligations of the Licence Holder have not changed in the revision of the Licence and the transfer is limited to:

- updating registered company name;

- updating typographical errors;
- updating format of the licence; and
- updating/deletions/inclusion of definitions.
