4. Conclusion	1
4.1 Summary of amendments	1

1. Decision summary

The Delegated Officer has determined to make amendments to Licence L5258/1991/11. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act). The decision report for the Existing licence will remain on the department's website for future reference and will act as a record of the department's decision making.

2. Scope of assessment

2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Amendment summary

Licence L5258/1991/11 is held by Pilbara Iron Company (Services) Pty Ltd (Licence Holder) for the Mt Brockman, Nammuldi and Silvergrass Iron Ore Mines (the Premises). The Premises relates to the category 6 and the assessed production/design capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing L5258/1991/11.

On 15 November 2023, the department initiated an amendment to Licence L5258/1991/11. The amendment is limited to correcting an error for the category 6 assessed production/design capacity from 42,300,00 tonnes per annual period to 42,300,000 tonnes per annual period.

3. Consultation

The Licence Holder was provided with the draft Amendment Report on 22 November 2023 and on 04 December 2023 the Licence Holder waived the comment period.

4. Conclusion

Based on the assessment in this Amendment Report, the Delegated Officer has determined that an amended licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

4.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.

Table 1: Summary of licence amendments

Condition no.	Proposed amendments
Cover page	Category 6 assessed production/design capacity updated from 42,300,00 tonnes per annual period to 42,300,000 tonnes per annual period
