Premises and amendment description

This amendment is made pursuant to section 59 of the *Environmental Protection Act 1986* (EP Act) to amend licence L5417/1990/11 issued to the Licence Holder. As the existing licence L5417/1990/11 expires on 30 September 2020, DWER has decided to initiate this amendment to extend the duration of the licence to 30 September 2040 and amalgamate Amendment Notice 1 (issued 10 September 2018) into this amendment.

The Licence Holder currently operates a foundry and electroplating facility including abrasive blasting and metal coating activities at Lot 64 Craigie Street, Davenport under Licence L5417/1990/11.

The Department of Water and Environmental Regulation (DWER) has not undertaken any additional risk assessment of emissions and discharges from the Premises during this amendment process. DWER proposes to undertake a licence review in due course as the licence duration has been extended on multiple occasions.

In consolidating the licence, the Delegated Officer has:

- updated the format and appearance of the Licence;
- removed Attachment 2: Annual Audit and Compliance Report;
- revised licence condition's numbers, and removed any redundant conditions and realigned condition numbers for numerical consistency; and
- corrected clerical mistakes and unintentional errors.

The following guidance statements have informed the decision made on this amendment:
