1. Decision summary

The Delegated Officer has determined to make amendments to Licence L6110/1990/13. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the Existing licence will remain on the department's website for future reference and will act as a record of the department's decision making.

2. Scope of assessment

2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Amendment summary

Licence L6110/1990/13 is held by Australian Gold Reagents Pty Ltd (Licence Holder) for a chemical manufacturing facility, located at Part Lot 20 on Diagram 78086.

The Premises relates to the category and the assessed production capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Licence.

On 7 February 2025, the department initiated an amendment to Licence L6110/1990/13. The amendment is limited to updating the premises boundary and maps and correction of a typographical error.

Ministerial Statement 1196 in which the development envelope was modified was issued on 27 August 2024. This amendment is so the premises boundary of licence L6110/1990/113 agrees with the development envelope in the ministerial statement. Spatial data for the development envelope is held by the Department of Water and Environmental Regulation in Environment Online as DWER-130335590-5420.

3. Consultation

The Licence Holder was provided with the draft Amendment Report on 13 February 2025. An email received from the Licence Holder on 28 February 2025 indicated that they had no comment on the draft.

4. Conclusion

Based on the assessment in this Amendment Report, the Delegated Officer has determined that an amended licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

4.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.
