1. Decision summary

The Delegated Officer has determined to make amendments to Licence L6748/1994/13. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

2. Scope of assessment

2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Amendment summary

Licence L6748/1994/13 is held by Water Corporation (Licence Holder) for the Caddadup (Mandurah No. 3) Water Resource Recovery Facility (the Premises), located at Lot 1955 on Plan 192450 (Crown Reserve 44270) Caddadup WA.

The Premises relates to the categories and the assessed production/design capacity under Schedule 1 of the Environmental Protection Regulations 1987 (EP Regulations) which are defined in existing Licence L6748/1994/13.

On 7 March 2025, the department initiated an amendment to Licence L6748/1994/13. The amendment is limited to the removal of monitoring ambient groundwater locations MB4/02 and MB1/02 in condition 14, table 7 of the licence.

These monitoring locations were previously removed from the licence in 2015 as they are non-operational and no longer part of the monitoring network. During a 2023 amendment of the licence these locations were incorrectly reinstated on the licence.

3. Consultation

The Licence Holder was provided with the draft Amendment Report on 14 March 2025. On 3 April 2025, the Licence Holder waived the comment period.

4. Conclusion

Based on the assessment in this Amendment Report, the Delegated Officer has determined that an amended licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

4.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.

Table 1: Summary of licence amendments

Condition no.	Proposed amendments
Condition 14, Table 7	The removal of monitoring point reference and location MB3/02 and MB1/02
