

## Department initiated Amendment

### Part V Division 3 of the *Environmental Protection Act 1986*

---

<b>Licence Number</b>	L6820/1993/12
<b>Licence Holder</b>	Robe River Mining Co. Pty Ltd
<b>ACN</b>	008 694 246
<b>File Number</b>	APP-0032422
<b>Premises</b>	Mesa J and K Iron Ore Mine FORTESCUE WA 6716  Legal description Being Mining Lease AML248SA – as defined in Figure 1, Schedule 1
<b>Date of Report</b>	<b>21/01/2026 (FINAL)</b>
<b>Decision</b>	Revised licence granted

## 1. Decision summary

The Delegated Officer has determined to make amendments to Licence L6820/1993/12. The amendments are administrative in nature, therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The Decision Reports for the Existing Licence will remain on the department's website for future reference and will act as a record of the department's decision making.

## 2. Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

## 3. Amendment summary

Licence L6820/1993/12 is held by Robe River Mining Co. Pty Ltd (Licence Holder) for the premises known as Mesa J and K Iron Ore Mine (the Premises), located within Mining Lease AML248SA, within the locality of Fortescue, WA.

The Premises relates to the categories and the assessed production/design capacities under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which is defined in the Licence.

In July 2020, the Government announced a package of regulatory reforms to streamline approval processes and to aid economic recovery post COVID-19. With these reforms, the CEO implemented an administrative renewal process to fast-track the renewal of licences determined to be of lower risk.

This work has reduced timeframes of assessments, however, the Department is streamlining the process further. Where identified as being appropriate to action, the Department is extending the duration of licences that are due to expire up to 30 June 2026 (amend to extend). Licence L6820/1993/12 has been identified as a licence suitable to process as an administrative extension to the licence duration.

On 14 November 2025, the department initiated an amendment to Licence L6820/1993/12. **The amendment is limited to extending the licence expiry date.**

No re-assessment of risk has been undertaken at this time.

## 4. Consultation

The Licence Holder was provided with the draft Licence and draft Amendment Report on 15 January 2026. On 20 January 2026, the Licence Holder waived the comment period.

## 5. Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.
