Scope of amendment

Amendment summary

Ausvision Rural Services Pty Ltd (licence holder) hold licence L6826/1994/13, issued under Part V Division 3 of the *Environmental Protection Act 1986*. The licence is due to expire on 1 May 2025.

The licence relates to operation of a red meat processing facility in the rural locality of Beaufort River, about 200 km south-east of Perth. The main activities occurring on the premises include the slaughtering and processing of sheep and goats and management of wastes generated from operations.

The department intended on conducting a targeted review of the licence as part of processing a replacement licence in 2025, to ensure:

- the licence still accurately reflects the activities being conducted on the premises;
- all emissions and discharges have been properly identified; and
- there is an appropriate level of regulatory control being applied, commensurate with the risk of impacts from ongoing operations to public health and the environment.

However, due to time constraints, the department proposes to extend the duration of the licence to allow sufficient time for a targeted review and issue of a replacement licence.

Decision

The delegated officer has determined to extend the duration of the existing licence as an administrative change, on the grounds of time constraints to complete a targeted review of the licence, and that it does not change the obligations of the licence holder in the interim.

The licence duration will be extended by 5 years, now expiring in 2030, in which time it is anticipated the department will have completed its targeted review and issued a replacement licence.

Consultation

The draft licence and this report were provided to the licence holder on 18 February 2025, who had no objection to the change listed in the below table.
