Licence Holder	Fox Radio Hill Pty Ltd
ACN	092 493 653
File Number	DWERVT16756
Premises	Radio Hill Mine Site KARRATHA WA 6714 Legal description – Mining Lease M47/161 and M47/337 As defined by the Premises maps attached to the Revised Licence
Date of Report	06 March 2025 (FINAL)
Decision	Revised licence granted

1. Decision summary

The Delegated Officer has determined to make amendments to Licence L7922/1989/5. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act). The existing Decision Report(s) for the Licence will remain on the department's website for future reference and will act as a record of the department's decision making.

1.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

1.2 Amendment summary

Licence L7922/1989/5 is held by Fox Radio Hill Pty Ltd (Licence Holder) for the Radio Hill Mine Site (the Premises), located at Mining Lease M47/161 and M47/337, KARRATHA WA 6714.

The Premises relates to the categories and the assessed production capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Licence L7922/1989/5.

In July 2020, the Government announced a package of regulatory reforms to streamline approval processes and to aid economic recovery post COVID-19. With these reforms, the CEO implemented an administrative renewal process to fast-track the renewals for licences determined to be lower risk.

This work has reduced timeframes of assessments however, the CEO proposed to streamline the process further. Where identified as being appropriate to action, the department is extending the duration of licences that are due to expire in the period up to 30 June 2026 (amend to extend). This licence has been identified as a licence suitable to process as an administrative extension to the licence duration.

On 02 January 2025, the department initiated an amendment to Licence L7922/1989/5. The amendment is limited to extending the licence expiry date, updating occupier's registered company address and a minor correction to condition 23. No reassessment of risk has been undertaken at this time.

2. Consultation

The Licence Holder was provided with the draft Amendment Report on 10 February 2025. No comments were received within the consultation period.

3. Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.
