<b>Application Number</b>	APP-0027043
<b>Premises</b>	Jaguar Operation LEONORA WA 6438  Legal description –  Mining Tenements M37/44, M37/515, M37/1132, M37/1153, M37/1228, M37/1230, M37/1257, M37/1290 and M37/1301  As defined by the Premises map attached to the Revised Licence
<b>Date of Report</b>	26 March 2025
<b>Decision</b>	Revised licence granted

**SENIOR ENVIRONMENTAL OFFICER, INDUSTRY REGULATION  
STATEWIDE DELIVERY**

an officer delegated under section 20 of the *Environmental Protection Act 1986* (WA)

## 1. Decision summary

The Delegated Officer has determined to make amendments to Licence L8151/2005/2. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The Decision Report for the Existing Licence will remain on the department's website for future reference and will act as a record of the department's decision making.

### 1.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

### 1.2 Amendment summary

Licence L8151/2005/2 is held by Round Oak Jaguar Pty Ltd (Licence Holder) for the Jaguar Operations mine (the Premises), located within mining tenements M37/44, M37/515, M37/1132, M37/1153, M37/1228, M37/1230, M37/1257, M37/1290 and M37/1301.

The Premises relates to the categories and the assessed production/design capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Licence L8151/2005/2.

In July 2020, the Government announced a package of regulatory reforms to streamline approval processes and to aid economic recovery post COVID-19. With these reforms, the CEO implemented an administrative renewal process to fast-track the renewals for licences determined to be lower risk.

This work has reduced timeframes of assessments however, the CEO proposed to streamline the process further. Where identified as being appropriate to action, the department is extending the duration of licences that are due to expire up to 30 June 2026 (amend to extend). This licence has been identified as a licence suitable to process as an administrative extension to the licence duration.

On 8 January 2025, the department initiated an amendment to Licence L8151/2005/2. The amendment is limited to extending the licence expiry date and updating the conditions to the current format (which includes the removal of redundant conditions and updates to condition wording and numbering). No reassessment of risk has been undertaken at this time.

## 2. Consultation

The Licence Holder was provided with the draft Amendment Report on 4 March 2025. No comments were received from the Licence Holder.

## 3. Conclusion

The Delegated Officer has determined that a Revised Licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

### 3.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.

**Table 1: Summary of licence amendments**

Condition no.	Proposed amendments
Duration	Extended for five years from 2/04/2025 to 2/04/2030.
Introduction	Deleted as old format. This guidance is available in the department's Guideline: Industry Regulation Guide to Licensing (June 2019).
