1. Scope of amendment

1.1 Amendment summary

Bossong Engineering Pty Ltd (licence holder) hold licence L8295/2008/2, issued under Part V Division 3 of the *Environmental Protection Act 1986*. The licence is due to expire on 28 January 2025.

Bossong Engineering is located within the heavy industrial area 4km southwest of the Broome town center. The facilities are located on a 6500m² block. This includes a 1000 m² workshop and a 150 m² custom built abrasive blasting shed. Neighboring properties include industry such as road freight, oil and gas pipe lay-down, fabrication and earthmoving facilities.

The department intended to review and reformat the current licence as part of replacing the expiring licence. However, due to time constraints, the department has been unable to commence the review.

2. Decision

The delegated officer has determined to extend the duration of the existing licence as an administrative change, on the grounds of time constraints to complete a detailed review, and that it does not change the obligations of the licence holder in the interim.

The licence duration will be extended by 10 years, now expiring in 2035.

In extending licence duration, the delegated officer has also determined to make administrative corrections and updates, as detailed in the below table.

3. Consultation

The draft licence and this report were provided to the licence holder on 20 January 2025. No comments were received.

3.1 Summary of changes
