## 1. Decision summary

The Delegated Officer has determined to grant the transfer of licence L8666/2012/2. The amendment is administrative in nature and does not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Decision Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

This decision report for the existing licence will remain on the departments website for future reference and will act as a record of the departments decision making.

## 2. Scope of assessment

### 2.1 Regulatory framework

In completing the assessment documented in this decision report, the Department of Water and Environmental Regulation (the department; DWER) has considered and given due regard to its regulatory framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

### 2.2 Application summary and overview of premises

On 15 April 2021 Northern Star (Carosue Dam) Pty Ltd (Northern Star), submitted an application to transfer licence L8666/2012/2 into their name, following a merger with Saracen Mineral Holdings Limited, retaining the same ACN (116 649 122). All tenements associated with the project are now held by Northern Star.

The assessment of the transfer application is limited to a review of ownership details to determine if a transfer may occur. There are no proposed changes to the current approved premises categories or associated design capacity.

The CEO has also determined to include minor administrative changes as part of the transfer, including:

- Updating the format and appearance of the licence;
- Correcting clerical mistakes and unintentional errors; and
- Updating the premises description and map.

## 3. Consultation

The Licence Holder was provided with the draft licence and decision report on 9 July 2021 and provided comments on 29 July 2021, which are summarised in Appendix 1.

## 4. Conclusion

The Delegated Officer has determined the transfer of the licence is an administrative change which does not alter the risk profile of the premises. Other administrative changes, including updating format, appearance and correcting clerical errors were also considered not to alter the risk profile of the premises. Therefore, the Delegated Officer has determined to transfer the licence from Saracen Mineral Holdings Limited to Northern Star (Carosue Dam) Pty Ltd.

### 4.1 Summary of amendments
