

Department initiated Amendment

Part V Division 3 of the *Environmental Protection Act 1986*

Licence Number	L8748/2013/2
Licence Holder	Hallgrav Pty Ltd
ACN	645 594 378
DWER File Number	2013/002689-1
Premises	Bindoon Hill Gravel Quarry 75 Toy Road BINDOON WA 6502 Being Part of Lot 7 on Plan 7148 As depicted in Schedule 1
Date of Report	14 February 2025
Decision	Revised licence granted

1. Decision summary

The Delegated Officer has determined to make amendments to Licence L8748/2013/2 (the Existing Licence). The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The Decision Report for the Existing Licence will remain on the department's website for future reference and will act as a record of the department's decision making.

1.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

1.2 Amendment summary

Licence L8748/2013/2 is held by Hallgrav Pty Ltd (Licence Holder) for the Bindoon Hill Gravel Quarry (the Premises), located at 75 Toy Road, Bindoon.

The Premises relates to the category and the assessed production/design capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Licence L8748/2013/2.

The Department of Water and Environmental Regulation (DWER) is currently undertaking several regulatory reforms to help streamline approval processes. An administrative renewal process is currently underway to fast-track renewals for licences granted under Part V, Division 3 of the EP Act, that are deemed to be lower risk.

The department considers licence L8748/2013/2 to be lower risk and that there is insufficient time to complete a licence renewal prior to the current licence expiry. Therefore, the Delegated Officer has determined to extend the licence duration by five years to ensure the current licence continues to remain in force until a full assessment is able to be completed.

This amendment is limited to extending the licence expiry date, removing redundant conditions and renumbering of conditions. Further, the *Notice Of Amendment And Schedule Of Licences With Amended Expiry Dates (2016)* under Section 59B(9) and Section 59(1)(k) of the EP Act will cease to give effect in relation to licence L8748/2013/2 following this amendment as it relates to extension of the licence expiry date.

2. Consultation

The Licence Holder was provided with the draft Amendment Report on 10 February 2025. On 12 February 2025, the Licence Holder waived the comment period with no comments.

3. Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised licence as part of the amendment process.

Table 1: Summary of licence amendments

Existing Condition	Condition summary	Revised licence condition	Conversion notes
Cover page - Duration	Extended until 11/05/2030		
4	Dust emissions	N/A	Redundant condition
5 (f)	Dust emissions	N/A	Redundant condition
5	Dust emissions	4	Revised condition number
6	Records and reporting	5	Revised condition number
7	Records and reporting	6	Revised condition number
8	Records and reporting	7	Revised condition number
9	Records and reporting	8	Revised condition number
