1. Decision summary

The Delegated Officer has determined to make amendments to licence L8971/2016/1. The amendments are administrative in nature therefore they do not alter the risk profile of the premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This amendment report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the existing licence will remain on the department's website for future reference and will act as a record of the department's decision making.

2. Scope of assessment

2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Application summary

Summit Resources Pty Ltd currently holds licence L8971/2016/1 for the operation of Radio Gold Mine (the premises), part of Mining Tenement M77/633 in Southern Cross.

The premises relates to the categories and the assessed production capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing licence L8971/2016/1.

On 21 June 2021, Bullfinch Radio Pty Ltd (the applicant) submitted an application to the department to transfer licence L8971/2016/1 into their name. The mining tenement associated with the premises is currently held by Bullfinch Radio Pty Ltd.

The assessment of the transfer application is limited to a review of ownership details to determine if a transfer may occur. There are no proposed changes to the current approved premises categories or associated design capacity.

The CEO has also determined to include minor administrative changes as part of the licence transfer, these are limited only to:

- updating the format and appearance of the licence; and
- correcting clerical mistakes and unintentional errors.

3. Conclusion

Based on the assessment in this amendment report, the Delegated Officer has determined that an amended licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

3.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the revised licence as part of the amendment process.

Table 1: Summary of licence amendments

Relevant section or condition No.	Proposed amendments
Cover page	Updated licence holder from Summit Resources Pty Ltd to Bullfinch One Pty Ltd.
Licence history	Licence transfer information has been added.
Throughout licence	The following items have been updated throughout the licence: <ul style="list-style-type: none">• Licensee has been replaced with licence holder; and• Licence, licence holder, department and premises are now demonstrated in lower case.
Condition 2.1.3	The acronym for 'CEMS' has been expanded to provide clarity on this term.
Table 6	Removal of the notation ¹ within the 'Notification requirement' column as there was no notation detail associated with this in the existing licence.
Table 7 (Definitions)	<ul style="list-style-type: none">• A definition for 'CEMS' has been included.• The definition for 'EP Regulations' has been removed as this is not referenced as an acronym within the licence.• The 'Landfill Definitions' definition has been updated to remove reference to the former name of the department.
Schedule 1, Maps	Table references for the containment infrastructure and monitoring locations have been updated to ensure accurate cross referencing of tables within the licence.
