1. Decision summary

The Delegated Officer has determined to make amendments to works approval W6510/2021/1. The amendments are administrative in nature therefore they do not alter the risk profile of the premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This amendment report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the existing works approval will remain on the department's website for future reference and will act as a record of the department's decision making.

2. Scope of assessment

2.1 Regulatory framework

In amending the works approval, the department has considered and given due regard to its regulatory framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Amendment summary

Works approval W6510/2021/1 is held by Blue Phoenix Western Australia Pty Ltd (works approval holder) for the Hope Valley IBA Facility (the premises), located at 67 Investigator Drive, Hope Valley.

The premises relates to the category and the assessed production capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing works approval W6510/2021/1.

On 19 May 2025, the department initiated an amendment to works approval W6510/2021/1 to extend time limited operations of the works approval. The extension is sought to ensure activities at the premises currently authorised under time limited operations can continue whilst the Licence application for the premises is under assessment. The Licence application was submitted by the works approval holder on 31 March 2025.

3. Consultation

The Works Approval Holder was provided with the draft Amendment Report on 20 May 2024. Comments received from the Works Approval Holder on 27 May 2025 have been considered by the Delegated Officer.

4. Conclusion

Based on the assessment in this amendment report, the Delegated Officer has determined that an amended works approval will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

4.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the revised works approval as part of the amendment process.
