1. Decision summary

The Delegated Officer has determined to make amendments to Works Approval W6555/2021/1. The amendments are administrative in nature, therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the existing works approval will remain on the department's website for future reference and will act as a record of the department's decision making.

2. Scope of assessment

2.1 Regulatory framework

In amending the works approval, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Application summary

Works Approval W6555/2021/1 is held by Pilbara Iron Pty Ltd (Works Approval Holder) for the Ti Tree Rail Camp Wastewater Treatment Plant (the Premises), located within Miscellaneous Licence L47/47, West Pilbara.

The Premises relates to the category and the assessed design capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Works Approval W6555/2021/1.

The Works Approval Holder submitted an Environmental Compliance Report on 28 March 2024 and then commenced time limited operations as per the works approval. The Works Approval Holder submitted an application for a licence on 17 May 2024, but due to a system issue it was not received by the department until resubmission on 16 July 2024.

On 13 September 2024, the Works Approval Holder submitted an application to the department to amend Works Approval W6555/2021/1 under section 59B of the *Environmental Protection Act 1986* (EP Act). The amendment is limited only to extending the time limited operations period to allow for sufficient time for the licence application to be assessed and a licence to be granted.

3. Consultation

The Works Approval Holder was provided with the draft Amendment Report on 24 September 2024. On 25 September 2024 the Works Approval Holder waived the comment period.

4. Conclusion

Based on the assessment in this Amendment Report, the Delegated Officer has determined that an amended works approval will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

4.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the Revised works approval as part of the amendment process.

Table 1: Summary of works approval amendments

Condition no.	Proposed amendments
Cover page	Date of amendment updated
History	Current amendment added
Condition 5(a)	Time limited operations changed from <i>180 days after submission of the Environmental Compliance Report</i> to <i>until 1 December 2024</i>
