1. Decision summary

The Delegated Officer has determined to make amendments to Works Approval W6664/2022/1. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the existing works approval will remain on the department's website for future reference and will act as a record of the department's decision making.

On 17 April 2025, the Works Approval Holder submitted an application to the department to amend Works Approval W6664/2022/1 under section 59B of the *Environmental Protection Act 1986* (EP Act). The amendment is limited only to extending the duration of time limited operations for an additional 180 days.

The current duration of time limited operations is for 180 days. The Works Approval Holder wishes to extend this duration to facilitate the incorporation of the works approved under Works Approval W6664/2022/1 into the Licence L9221/2019/1.
