1. Decision summary

The Delegated Officer has determined to make amendments to Works Approval W6803/2023/1. The amendments are administrative in nature therefore they do not alter the risk profile of the Premises, providing that activities, emissions and receptors as stated in existing approvals remain unchanged.

This Amendment Report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the Existing works approval will remain on the department's website for future reference and will act as a record of the department's decision making.

2.2 Application summary

Works Approval W6803/2023/1 is held by Evolution Mining (Mungari) Pty Ltd (Works Approval Holder) for the Mungari Gold Project (the Premises), located in Mining tenements L15/228, L15/246, M15/688, M15/829, M15/830, M15/1287, M15/1407 and M15/1741.

The Premises relates to the category and the assessed production/design capacity under Schedule 1 of the *Environmental Protection Regulations 1987* (EP Regulations) which are defined in existing Works Approval W6803/2023/1.

An extension of the TLO duration was requested to allow more time for the department to assess the application to amend licence L7750/2001/10. This proposed amendment includes the addition of the expanded Mungari Processing Plant to the licence, already approved under works approval W6803/2023/1.

3. Consultation
