Condition no:	5	Date(s) of non-compliance:	2019, 2020, 2021, 2022 and 2023
---------------	---	----------------------------	---------------------------------

Details of non-compliance:

There are 36x 24kL offshore rated ISO containers containing waste material that are not “*Stored in bunded, impervious concrete hardstand pad*”.

What was the actual (or suspected) environmental impact of the non-compliance?

NOTE – please attach maps or diagrams to provide insight into the precise location of where the non-compliance took place.

No environmental impact to the environment occurred because of the non-compliance.

Fig. 1

Fig. 2

Cause (or suspected cause) of non-compliance:

Tanks not being accounted for through site inspections therefore were not acknowledged as being non-compliant

Action taken to mitigate any adverse effects of non-compliance and prevent recurrence of the non-compliance:

The ISOS are currently stored on compacted ground. Each ISO is in a good condition, built to be suitable for shipping and manufactured in accordance with specifications outlined in the International Organisation for Standardisation.

Additional interim controls have been put in place at each site including:

- Daily site inspections
- ISOs have been relocated away from site boundary
- Installation of earthen bund to contain any spills if one occurs
- Additional emergency response training as required
- Spill response and adequate onsite spill equipment assessment.

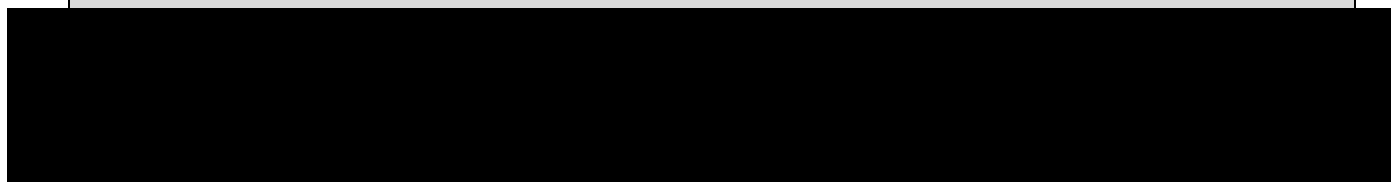

Disposal pathways of the material are being investigated.
