Section E – Details of Non-Compliance with Licence Condition
Please use a separate page for each condition with which the licence holder was non-compliant at a time during the reporting period.

Condition no:	4	Date(s) of non-compliance:	2024
Details of non-compliance:			
<p>Windblown rubbish collection did not occur weekly.</p> <p>The Infrastructure Department undertakes inspections and collects wind-blown waste on a monthly basis. Internal inspections conducted quarterly by the Environment Department during the reporting period noted wind-blown waste was present during each inspection. This was recorded in isims as an inspection action to be undertaken by the accountable department (Infrastructure). Each time Infrastructure received the inspection action, an additional litter pick-up was conducted. AGAA is currently improving accountabilities for the landfill and looking into further measures to adhere to PPL Condition 4.</p>			
What was the actual (or suspected) environmental impact of the non-compliance?			
<p><b>NOTE</b> – please attach maps or diagrams to provide insight into the precise location of where the non-compliance took place.</p> <p>Minimal impact to the receiving environment due to the location of the landfill being within a Waste Rock Landform and it is well within the Premises boundary (Figure 1 Location of the landfill).</p> <p>Collection of windblown waste has occurred, just not always on a weekly basis.</p>			
Cause (or suspected cause) of non-compliance:			
Staff turnover and lack of clarity for accountability for the activity.			
Action taken to mitigate any adverse effects of non-compliance and prevent recurrence of the non-compliance:			
AGAA is currently improving accountabilities for the landfill. Litter pick-ups have increased during 2024, and are increasing towards a weekly frequency. The Environment Department continues to undertake inspections and communicate with the relevant Departments to ensure litter pick-ups are happening regularly.			
Was this non-compliance previously reported to DWER?			
Yes. In the 2023 AER and AACR.

## Department of Water and Environmental Regulation

Condition no:	8	Date(s) of non-compliance:	February 2024
Details of non-compliance:			
<p>During the Processing Department's routine CTD inspections on 9/2/2024, it was noted that the freeboard requirements of the license were not being met in one location This was reported to DWER 14/2/2024 and the following steps were undertaken:</p> <ul style="list-style-type: none"> <li>• Ceased tailings deposition immediately into that area of the Central Tailings Deposition CTD Tailings Storage Facility (TSF).</li> <li>• Conducted detailed survey to confirm visual observation.</li> <li>• Commenced investigation to develop remediation plan to reinstate 300 mm freeboard.</li> <li>• The freeboard requirements were reinstated within a week with no rainfall or tailings deposition occurring during this time. As such there were no environmental impacts as a result of the minor licence breach.</li> </ul>			
What was the actual (or suspected) environmental impact of the non-compliance?			
<p><b>NOTE</b> – please attach maps or diagrams to provide insight into the precise location of where the non-compliance took place.</p>			
The freeboard requirements were reinstated within a week with no rainfall or tailings deposition occurring during this time. As such there were no environmental impacts as a result of the minor licence breach.			
Cause (or suspected cause) of non-compliance:			
Erosion
