Section E – Details of non-compliance with licence condition

Please use a separate page for each condition with which the licence holder was non-compliant at a time during the reporting period.

Condition no:	12, table 4	Date(s) of non-compliance:	1 January – 31 December 2024
---------------	-------------	----------------------------	------------------------------

Details of non-compliance:

There are 63 24kL offshore rated ISO containers (23 have now been emptied) and 2 56kL tanks (one of which is now empty) containing waste material that are not “Located in bunded hardstand area”.

What was the actual (or suspected) environmental impact of the non-compliance?

NOTE – please attach maps or diagrams to provide insight into the precise location of where the non-compliance took place.

No environmental impact to the environment occurred because of the non-compliance.

Fig 1: Location of tanks.

Cause (or suspected cause) of non-compliance:

Tanks not being accounted for through site inspections therefore were not acknowledged as being non-compliant.

Section E – Details of non-compliance with licence condition

The ISOS are currently stored on compacted ground. Each ISO is in a good condition, built to be suitable for shipping and manufactured in accordance with specifications outlined in the International Organisation for Standardisation.

Additional interim controls have been put in place at each site including:

- Daily site inspections
- ISOs have been relocated away from site boundary
- Installation of earthen bund to contain any spills if one occurs
- Additional emergency response training as required
- Spill response and adequate onsite spill equipment assessment.

Disposal pathways of the material have been investigated. The waste is now being processed and removed from site.

The 2 56kL tanks are planned to be removed from site.
