Section E – Details of Non-Compliance with Licence Condition			
Please use a separate page for each condition with which the licence holder was non-compliant at a time during the reporting period.			
Condition no:	L8860/2014/1	Date(s) of non-compliance:	
Details of non-compliance:			
Acceptance limit was exceeded by in excess of 9948 tonnes			
What was the actual (or suspected) environmental impact of the non-compliance?			
NOTE – please attach maps or diagrams to provide insight into the precise location of where the non-compliance took place.			
None			
Cause (or suspected cause) of non-compliance:			
Capital acknowledge that based on the figures supplied, the acceptance limit was breached by approx. 9900 tonnes (based on the calculation from M3). The conversion provided in our licence by the DWER (1.3 tonnes per cubic metre) is not accurate but serves the purpose of reasonable estimations. Loose concrete rubble can range from 0.7 tonnes to 1.7 tonnes per cubic metre depending on material types. A triaxle tipping trailer on a semi technically holds 20m3 which is what we charge for despite the fact that due to weigh of materials a load can actually contain only about 15m3 – again depending on density of materials and how well the truck has been loaded. We are comfortable that with a minor allowance for these factors, the overall intake of material data is keeping us within our licence requirements.			
Action taken to mitigate any adverse effects of non-compliance and prevent recurrence of the non-compliance:			
None required			
Was this non-compliance previously reported to DER?			
<input type="checkbox"/> Yes, and			
<input type="checkbox"/> Reported to DER verbally	Date: / /		
<input type="checkbox"/> Reported to DER in writing	Date: / /
