### Section E – Details of Non-Compliance with Licence Condition

Please use a separate page for each condition with which the licence holder was non-compliant at a time during the reporting period.

Condition no:	1	Date(s) of non-compliance:	31/12/2024
---------------	---	----------------------------	------------

Details of non-compliance:

The licence permits the facility to accept 8,000 tpa of liquid waste. During the reporting period, a total of 8,061 tonnes was received.

What was the actual (or suspected) environmental impact of the non-compliance?

**NOTE** – please attach maps or diagrams to provide insight into the precise location of where the non-compliance took place.

None. The liquid waste treatment ponds have more than enough capacity to deal with the amount received and still operate within the conditions of the licence.

Cause (or suspected cause) of non-compliance:

It is impossible to predict precisely how much liquid waste will be generated in the area in any one year. Busselton is a growing area, with a commensurate increase in waste generation. It is not possible to reject loads of liquid waste, as there are currently no other disposal options in the area.

Action taken to mitigate any adverse effects of non-compliance and prevent recurrence of the non-compliance:

City of Busselton will closely monitor the amount of liquid waste received. If the amount of liquid waste delivered to the facility continues at current levels, a licence amendment to increase the permitted amount will be submitted.

Was this non-compliance previously reported to DWER?

☐ Yes, and

☐ Reported to DWER verbally

Date: / /

☐ Reported to DWER in writing
