## Interpretation

In this licence:

- (a) the words ‘including’, ‘includes’ and ‘include’ in conditions mean “including but not limited to”, and similar, as appropriate;
- (b) where any word or phrase is given a defined meaning, any other part of speech or other grammatical form of that word or phrase has a corresponding meaning;
- (c) where tables are used in a condition, each row in a table constitutes a separate condition;
- (d) any reference to an Australian or other standard, guideline, or code of practice in this licence:
  - (i) if dated, refers to that particular version; and
  - (ii) if not dated, refers to the latest version and therefore may be subject to change over time;
- (e) unless specified otherwise, any reference to a section of an Act refers to that section of the EP Act; and
- (f) unless specified otherwise, all definitions are in accordance with the EP Act.

**NOTE:** This licence requires specific conditions to be met but does not provide any implied authorisation for other emissions, discharges, or activities not specified in this licence.

## Licence conditions

The licence holder must ensure that the following conditions are complied with:

1. The Licence Holder shall operate and maintain all pollution control and monitoring equipment to the manufacturer's specification or any relevant and effective internal management system.
2. The Licence Holder shall immediately recover or remove and dispose of spills outside an engineered containment system.
3. The Licence Holder shall not cause or allow the production of material extracted from the ground that is screened, washed, crushed, ground, milled, sized or separated at the Premises greater than the limit of 800,000 tonnes per annual period.
4. The Licence Holder shall not cause or allow at the Premises, between the hours of 1900 hours and 0500 hours of the next day, operations which include:
  - (a) screening of material;
  - (b) the transport of screened material; or
  - (c) blasting.

## Emissions and discharges

5. The Licence Holder shall use all reasonable and practical measures to prevent and where that is not practicable to minimise dust emissions from the Premises.
6. The Licence Holder shall ensure that no visible dust generated by the activities on the Premises crosses the boundary of the Premises.
7. The Licence Holder shall comply with the commitments and requirements of the Tamarine Quarry Dust Management Plan.

## Monitoring

8. The Licence Holder shall undertake the monitoring in Table 2 according to the specifications in that table.

**Table 2: Monitoring of inputs and outputs**

Input/ Output	Parameter	Units	Averaging period	Frequency
Material that is extracted from the ground and is screened, washed, crushed, ground, milled, sized or separated	Weight of Limestone	Tonnes	Annual period	Continuous

## Records and reporting

### Records
